

PRINCIPAL TO CONFER DEGREES ON RECORD CLASS

Geography, Music to Hold Summer Schools; French, Regular Courses Also Set

Exploration in Arctic Topic Of Lectures

McGill will conduct the first Geography Summer School ever to be held on Canadian soil this summer at Stanstead College. Registration for the School has already reached the number of 80 students—of whom a large proportion are from the United States—and registration will not close until June 30. The School itself will begin on that date and will continue until August 11.

Lecturers in Geography have been brought from universities in the United States, Great Britain and Canada. Professor George H. T. Kimble, M.A., Professor of Geography, and Chairman of the Department at McGill will be among those lecturing. Other universities represented will include the University of London, the University of Michigan and Toronto University. Pierre Dagenais, B.A., Ph.D., Professor of Geography at the University of Montreal will also lecture.

One of the special features of the courses will be a series of lectures under the heading 'Man in the Arctic', which will be offered in co-operation with the Arctic Institute of North America. It is expected that the lecturers for this course will include Dr. V. Stefansson and Sir Hubert Wilkins both noted for their research and writings on Arctic and Antarctic conditions. Lt.-Colonel P. D. Baird, a physiologist still to be named. Among those already known to be registered for these lectures on adaptation of man to the Arctic and Subarctic conditions are twenty American Army officers.

The school has been designed as a means to "provide courses not only of professional value to teachers of the subject, but also of general interest to . . . all those who seek a fuller insight into the geographic basis of modern society." Courses being offered range from the Geography of Agriculture to Climate and Weather, and from Political Geography of Europe to the Scientific Analysis of Scenery.

Viola Course To Be Given By W. Primrose

An eight weeks master course will be given at MacDonald College in Violin and Viola for advanced players only, from June 2 to July 28 inclusive. Lessons will be given personally by William Primrose, as visiting professor.

Primrose is the most famous viola player in the world; chosen by all the great conductors in America and Europe as soloist; an eminent teacher. The course is limited to twenty students. Qualifying tests will be held between May 1 and May 15 in the Conservatorium. Lessons individual and class will be given Mr. Primrose.

Dean Douglas Clarke, Director of the Conservatorium, is going to England on vacation sometime in June. This will be his first trip since 1939 when he used to go every year.

LPP School For Marxism Said Success

The final meeting of the Second Annual Marxist School, sponsored by the McGill L.P.P. Club, was held in the McGill Union on Thursday evening, May 22. The school had its first meeting on May 10, and was attended by 110 McGill students, under the chairmanship of John Switzman, past president of the L.P.P. Club at McGill.

Speakers at the school were leading members of the L.P.P., including Tim Buck, Gordon McCutcheon and Guy Caron. The speakers gave a series of 12 lectures on various aspects of the Communist theory as pronounced by Marx and later Marxist theoreticians.

The Chairman of the School, John Switzman, stated that the school has been as successful as he had ever hoped it would be, and mentioned the consistent high attendance as an evidence of the high standards of the School. The lectures and discussion groups, he stated, had provided a wide ex-

(Continued on Page 7)

Accommodation Limited Both Here, St. Johns

This year McGill is again offering summer students its French Summer School courses and regular Summer School. The latter will constitute the second term of the session for ex-service men and women who began their studies in January, 1947, in the Faculty of Arts and Science, and will be given partly at the McGill Campus in Montreal and partly at Dawson College.

The French school is designed for all who desire to take courses on French thought, literature or civilization, and at the same time to gain a practical working knowledge of the language. Registration will open on Friday, June 7, and the school will close on Friday, August 8.

It has been approved as one of the recognized institutions where U.S.A. and Canadian veterans may continue their studies.

Professor J. L. Launay is Director of the School and it was estimated that there would be 240 students from the United States and Canada in attendance.

There are three classes of eligibility for the regular summer school. Those students who wish to be accepted have to be either in a split year, to have entered in January, or those who wish to take the courses for no academic credit.

Professor W. H. Hatcher estimated that there would be approximately 300 students registered on the Montreal and Dawson camp when the school opens on June 2. It will close on August 5.

It was announced that on account of the large enrolment of regular students the residential accommodation is somewhat limited, both in Montreal and at St. Johns.

Several Professors to Retire This Session

Several members of the faculty of the university are either retiring or resigning at the end of the current session. They are Assistant Professor J. A. Coote, Engineering; Miss Dorothy King, Director of the School of Social Work; Miss Mary Mackenzie, lecturer in English; Professor W. McFarlane, Engineering; and Professor Pollock. Professor Boulding of the Department of Economics is resigning to take up a position with the University of Iowa.

To Receive Honorary Degrees

Cyrus J. Macmillan

These three members of the Faculty will receive honorary degrees on the occasion of their retirement from the university at the Convocation to be held Wednesday next. Dr. Macmillan was appointed Dean of the Faculty of Arts and Science in 1940 and is retiring from that post at the close of the summer session. Dr. Keys, who will deliver the Convocation address, was formerly Macdonald Professor of Physics and will now proceed to the vice-presidency of the National Research Council. Dr. Meakins, who first joined the faculty in 1910, was appointed to the deanship of the Faculty of Medicine in 1941.

Jonathan C. Meakins

Memorial Drive Nears Conclusion

The Campaign initiated by the Graduates' Society to provide the University with a fitting War Memorial is now drawing to its conclusion, with the final drive scheduled to be over by March 31. This date will mark the end of a campaign in which both graduates and undergraduates have worked together to reach the minimum objective of \$750,000 which is required to ensure the completion of the Athletics Centre. The first unit of the Centre was the present Sir Arthur Currie Gymnasium for which a campaign was carried on in 1933, and the Swimming Pool and Rink-Auditorium will complete the whole project as envisaged in the original plans.

In the Spring issue of the Graduates' magazine, the 'McGill News', the new secretary of the Campaign, F. Lyle Pattee, reports enthusiastically on the active and eager response of both graduates and undergraduates to the campaigns which have been conducted to date, and speaks confidently of the success which he is sure will be met with in the concluding phase. The undergraduates exceeded their assigned objective of \$10,000 in a campaign conducted on the campus early in December; combined totals give the War Memorial Committee a total of over half a million dollars.

One of the more remarkable features of the Campaign, commented on by Mr. Pattee, was the remarkable enthusiasm evidenced by graduates in all parts of the world in the activities of their Alma Mater; graduates of McGill from such far-off regions as Peru and Africa have not allowed distance to interfere with their interest in their old University. The amount subscribed by graduates resident in and around Montreal has been

(Continued on Page 7)

MESSAGE FROM THE PRINCIPAL

To each one of you who will receive a degree or a diploma at this Convocation, I want to offer a word of personal congratulations.

You are members of the largest graduating class that has ever gone out from the halls of McGill University, and you can be proud of what you have accomplished. You began your studies under the cloud of war, and many of you interrupted those studies in order to play an active part in the winning of that peace we now enjoy.

That peace, the years that lie immediately ahead of you in the careers on which you are about to embark, has its problems that are no less serious than those of war. There may be less action and less excitement, but there is no less danger in the long run. The basic problem that now confronts the western world is that of preserving peace, and the solution to that problem depends on the innumerable contributions of millions of men and women. It depends upon the ethics, and the fundamental honesty, of business. It depends upon better relations between employer and worker. It depends upon our efforts to feed the hungry in many lands, and upon our charity and justice in the construction of a decent environment for life—both physical environment and juridical environment—throughout Europe and Asia. It depends upon the sanity and wisdom that we display in our use of the ballot, which is our democratic privilege, and indeed upon our behaviour in all the walks of life. In the age in which we live, there is no action that is unimportant, and no individual whose contribution does not count. This is the time for greatness.

And it is a time for youth. The world has need of the enthusiasm that is your priceless gift, and of the fresh viewpoint that you can bring to human affairs. Don't pay too much attention to precedents, but understand them well enough to realize where your predecessors made their mistakes. Remember that the world is yours; and remember that your own welfare and happiness, as well as that of your contemporaries, depends upon the way in which you develop the ideas and institutions that you have inherited.

At this moment you are glad to be quit of lectures, laboratories and examinations. You are eager to set out upon the road of destiny. But in the years to come I hope that you may remember with affection this University, of which you will always be a part. Those of us who have tried to help you to learn will, like Mr. Chips, long remember you, and our good wishes for your success are a mental tapestry into which the threads of many memories are woven.

Good luck to you in all your doings.

F. Cyril James

Carabins to Hold Convocation Today

Convocation exercises of the University of Montreal this year will be marked by the conferring of twelve honorary degrees, including three honorary doctorates in Pharmacy. The ceremonies are slated to take place today, it was announced.

Among those receiving honorary degrees are J. E. LaForce, chairman of the Provincial Civil Service Commission; Rev. L. P. Fafard, superior of the Clerks of St. Vincent; Mgr. Brunault de Solages, rector of the University of Toulouse, in absentia; Prof. Bernadot Housay of Argentina, in absentia; Prof.

Baccalaureate Service To Be Held Sunday

The traditional Baccalaureate Service for all graduating students will be held in Moysse Hall on Sunday, May 25 beginning at 11.00 a.m. The Reverend E. Clifford Knowles, official Chaplain at Dawson College, will conduct the service and he will be assisted by the organist and choir of Knox Crescent Church, who have regularly occupied Moysse Hall on Sundays since their church was destroyed by fire.

F. Cyril James, Principal and Vice-Chancellor, will deliver the Baccalaureate Address. Rae Hunter is in charge of all arrangements for the ceremony.

Dr. Keys to Give Convocation Speech On Wed. May 28

Dr. Macmillan & Dr. Meakins Among Guests to Be Honored

Over 1,100 students will be presented with degrees at the Convocation, scheduled to start at 10.15 a.m., Wednesday, May 28 in the open air on the McGill Campus, or the weather failing, in the Sir Arthur Currie Memorial Gymnasium.

The three guests of honour, who will receive honorary degrees are all prominent men in the University. Two of the men to be honoured are Cyrus J. Macmillan, M.A., Ph.D., retiring dean of the faculty of Arts and Science of McGill University; and Jonathan C. Meakins, M.D., C.M., L.L.D., F.A.C.P., F.R.C.P., Hon. F.R.C.S., F.R.S.C., F.R.S.E., retiring dean of the Faculty of Medicine and a graduate of McGill and have been on the staff of the University for over 35 years.

Dance Under Patronage of Gov. General

The Convocation Ball, the social climax of a year of studies, will take place on Wednesday, May 28, in the Sir Arthur Currie Memorial Gymnasium beginning at 10.00 o'clock with Johnny Holmes and his orchestra supplying the music.

The Ball is under the distinguished patronage of Their Excellencies the Governor-General and the Viscountess Alexander of Tunis; Principal and Mrs. James; Dean and Mrs. Macmillan; Dean and Mrs. O'Neill; Dean and Mrs. Meakins; Dean and Mrs. Le Mesurier; Dean and Mrs. Walsh; Dean Clarke; Dean and Mrs. Thomson; Dean and Mrs. Brittain; Associate Dean and Mrs. Gillson; Associate Dean and Mrs. Smith; Associate Dean and Mrs. Hatcher; Prof. and Mrs. Bland; Prof. and Mrs. Woods; Dr. Lomer; Miss Lindeburgh; Lt.-Col. Walker (D.S.O.); Mr. Matthews; Dr. M. V. Roscoe; Prof. and Mrs. Maclellan; Dr. and Mrs. Tidmarsh; Mrs. Kennedy.

Johnny Holmes and his orchestra are well known for their work around Montreal, and he will have with him Oscar Peterson. Supper will be served at midnight. Tickets are obtainable to all graduates from members of the Convocation Activities or from George Foster in the Union Tuck Shop.

No Summer Daily

The McGill Daily will not publish a weekly edition during the summer. It was announced recently, following a meeting of the Students' Executive Council.

The scheme of printing "a Daily" once a week that was initiated last summer was considered inapplicable this year since less than 700 students will be attending the university during this period.

INSTRUCTIONS TO GRADUATES

Candidates for degrees must sign the register of graduates in the Registrar's Office before Convocation Day.

Graduating students do not need tickets for themselves, but they are entitled to two tickets which may be obtained at the Registrar's Office up till May 27. Additional tickets admitting to the campus but not to the Gymnasium may be obtained at the same time.

At Convocation, candidates for degrees must wear gowns, hoods, and caps proper to the degrees which they are to receive. These may be rented at the Bursar's Office up to 5 p.m. on May 27 at the following rates: Gowns, \$1.00; Hoods, \$1.50; Caps, 50 cents. These must be returned immediately after Convocation.

If fine, Convocation will be held on the Campus, and the Convocation Procession will assemble east of the Redpath Museum at 9.30.

If wet, Convocation will be held in the Sir Arthur Currie Memorial Gymnasium Armory; the Procession will assemble at 9.30 in a tent to be erected to the east of the building.

TIME-TABLE ACTIVITIES

Sunday, May 25:

11:00 a.m.—Baccalaureate Service

Moysse Hall

4:00 p.m.—At Home, Royal Victoria College

For all women graduates and their parents

Monday, May 26:

8:30 p.m.—McGill Night at Belmont Park

Special tickets and street cars are to be available: reserved cars leaving Beaver Hall Hill and Dorchester at 7.45.

Tuesday, May 27:

2:00 p.m.—Baseball, MacDonald Upper Field

Tennis, McTavish Courts

Golf, Clanranald Golf Club

6:30 p.m. and 7:00 p.m.—Class Dinners

Class presidents in charge of arrangements

Wednesday, May 28:

10:15 a.m.—Convocation Ceremony

Campus if fine, Gym if wet

1:00 p.m.—Tree Planting

Lower Campus

4:00 p.m.—The Principal's Garden Party

Campus if fine, Gym if wet

10:00 p.m.—Convocation Ball

Currie Memorial Gymnasium

Chief Justice Tyndale Is Appointed New Chancellor

Succeeding Morris Wilson In Position

Chief Justice Orville S. Tyndale, M.A., B.C.L., K.C., of the Superior Court of the Montreal Judicial District, recently elected Chancellor of McGill by the Board of Governors, has the distinction of being the first McGill graduate ever chosen for this honored position.

Chief Justice Tyndale succeeds the late Morris W. Wilson, whose passing deprived both this city and institution of a truly notable figure.

The election of a Chief Justice to the highest office of the University is not precedent-shattering, for in 1857 the Honourable Justice Charles D. Day became McGill's first Chancellor, and served in that office for 26 years.

Chancellor Tyndale was born in Montreal in 1867. He received his B.A. degree at McGill in 1908, and his M.A. the following year. At this time he held the position of special lecturer in French in the Faculty of Arts and Science, and he prides himself on being completely bilingual. In the autumn of that year, he went to Paris to continue his studies under a special scholarship provided by Sir William Macdonald, and tutored in English at the Ecole Normale Supérieure de Paris to provide for his room and board.

Taught in Canada

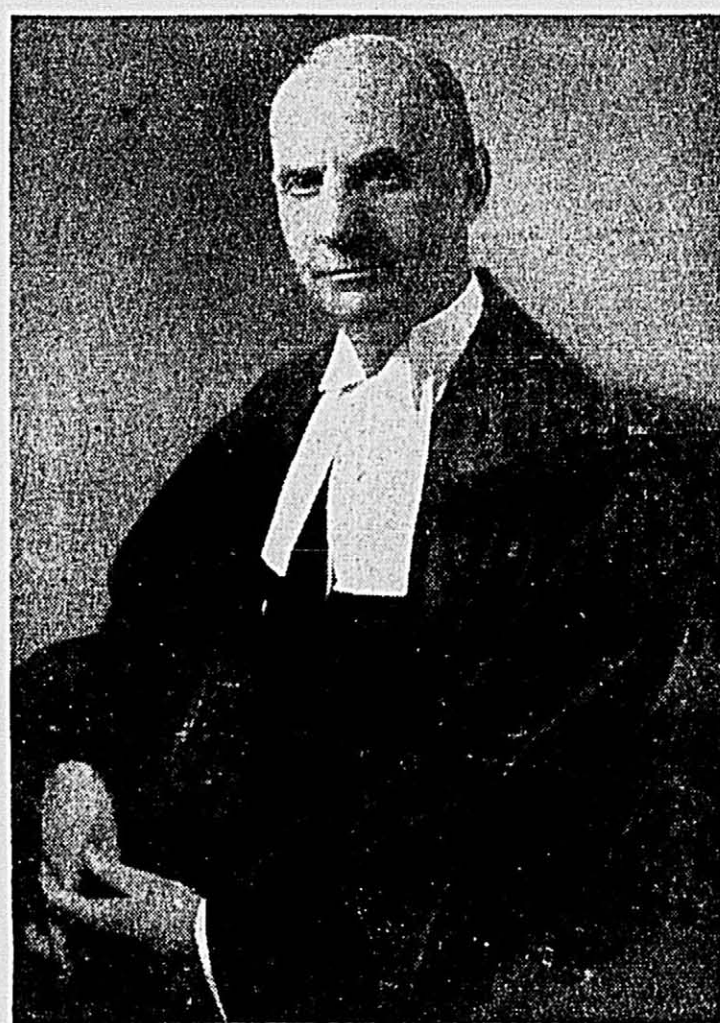

Two years later he was back in Canada, and accepted an appointment to teach in the French department of the new McGill College in Vancouver, B.C., which was soon to become the University of British Columbia. In the autumn of 1912, he returned to McGill as a student in the Faculty of Law with the degree of B.C.L. During that year, he resumed his teaching of French at McGill.

Immediately after his admission to the bar in the summer of 1915, Justice Tyndale was gazetted a lieutenant in the fifth overseas university company, and joined the Princess Pat's Light Infantry in the field in June, 1916. Wounded in September of that year, he returned to Canada and served on the H.Q. staff in Ottawa until he was demobilized with the rank of Brigadier Major in December, 1918.

Practised Law

In January, 1919, he joined the legal firm of McLennan, Howard, and Aylmer in Montreal, and returned that year as lecturer in the Faculty of Law at McGill. After two years, he was appointed to the teaching staff on a full time basis, lecturing in both Law and Arts and Science, but he relinquished the latter appointment in 1923 to join the legal firm of Brown, Montgomery, and McMichael, with which he was associated until his elevation to the bench in 1942.

The practice of law did not, however, interfere with his interest in McGill. He continued to serve as a member of the Faculty of Law attaining the rank of professor of

CHIEF JUSTICE ORVILLE S. TYNDALE, M.A., B.C.L., K.C., of the Superior Court of the Montreal Judicial District, and Chancellor of McGill University.

Chancellor Tyndale Grants Daily Exclusive Interview

By LYA POPPER

Our new Chancellor, Chief Justice Orville S. Tyndale, of the Superior Court for the Montreal Judicial District, in a recent interview, expressed a great interest in the relative characteristics and merits of the English and French cultures. Judge Tyndale, who is bilingual, discussed the different emphases that each culture gives. The French concentrate on logic. This is shown in their constitutions which are perfect on paper, but fail in practice. The English are empirical; their political system is illogical, but works well in practice.

When asked if he had any plans for next year's session, Judge Tyndale stated that he was not yet well enough acquainted with McGill affairs. He said, however, that he would be interested in seeing something done about the salaries of professors.

Chancellor Tyndale graduated from McGill in 1908, with a B.A., and was Valedictorian of his class. He showed our reporter the Valedictorian Address. In it he emphasized, that one should not consider

Civil Procedure and Jurisprudence in 1929, and retained that position until this spring. His appointment as chief justice in 1946 signified the high esteem in which he is held by the legal profession.

In editorializing about his appointment, a local newspaper said: "Universities usually seek out as Chancellors men who have devoted themselves to the public interest. Chief Justice Tyndale offers no exception to this rule. In-

deed, the record of his life is one of service to Montreal and its institutions. . . . The qualities which made the university seek him out as Chancellor were soon made manifest, and when he was appointed to the Bench and selected as Chief Justice of this district, the public recognized in these acts of the state, a crowning of a distinguished legal career. McGill has honored itself by selecting so eminent a Canadian as its Chancellor."

Highlighting a Record Year

The official opening of the Radiation Laboratory and Cyclotron Building marked the high point of development at McGill during the 1946-1947 session. McGill's cyclotron, the first in Canada and the second largest in the world, is shown above being inspected by three international leaders in the field of nuclear physics after they were honored at a special convocation held for the occasion. Looking behind the huge poles of the electromagnet that is the heart of the cyclotron, are, from left to right, DR. ERNEST O. LAWRENCE, of the University of California, inventor of the atom-smashing machine; DR. F. CYRIL JAMES, of the University of Copenhagen, one of the prominent men in the development of nuclear physics; and SIR JOHN ANDERSON, chairman of the Atomic Energy Commission of Great Britain.

FACULTY DEATHS

Arthur Reginald Roberts, M.Sc., a member of the McGill staff since 1908, Professor of Mechanical Engineering and Chairman of the Department.

Robert Summersby, B.S.A., McGill; M.S.A. Cornell, Professor of Agronomy and Chairman of the Department.

George Warrington Latham, B.A. Harvard; a member of the McGill staff from 1907-37; Greenhills Professor of English from 1937-7.

Reverend Joseph Luther Morin, M.A. McGill; a member of the staff from 1891-1923. He died at the age of 93 and was at that time probably the oldest living McGill graduate. He was Assistant Professor of Modern Languages from 1906-23.

Reverend Canon George Abbott-Smith, B.D.; former Principal of the Montreal Diocesan Theological College.

Dr. H. M. Tory; a McGill graduate and a former staff member. He was the founder of two Canadian colleges and two universities.

R. W. Klinck Receives B.C. Research Post

Appointment of Ronald W. Klinck, associate professor of mechanical engineering at McGill as head of the division of engineering at the British Columbia Research Council Laboratories in Vancouver, has been revealed recently.

Holding two degrees from the University of British Columbia, those of B.A. and M. A. Sc., Professor Klinck joined the McGill engineering faculty in 1942 as assistant professor of mechanical engineering. In 1945 he was promoted to associate professor, spec-

(Photo by Nakash.)

PROF. R. W. KLINCK

ializing in mechanical drawing and machine design. An authority in the latter, Prof. Klinck served from 1937 to 1942 in the engineering department of the Consolidated Mining and Smelting Company of Canada.

The British Columbia Research Council was established in 1944. It was founded by the provincial government, and it works in close liaison with the University of British Columbia. Professor Klinck expects to join the research body next month, when he leaves McGill.

Scunthorpe, England — Police threw a cordon round a Scunthorpe hotel after they learned that a man suffering from smallpox was in the bar. They rounded up everyone in the bar and all persons who had been associating with the man — about 70 in all — were vaccinated.

Retiring Dean

DR. JONATHAN C. MEAKINS, M.D., C.M., L.L.D., F.A.C.P., F.R.C.P., Hon. F.R.C.S., F.R.S.C., F.R.S.E., retiring Dean of the Faculty of Medicine.

Three Staff Members Retire After Forty Years Service

McGill University this year says farewell to three of its staff members, two of whom have seen more than 40 years service, and one after 39 years service. Prof. C. V. Christie, B.Sc., M.A., Macdonald professor of electrical engineering and chairman of the department; Prof. R. Lomer, M.A., Ph.D., F.L.A., university librarian, director of the Library School and professor of library administration; and Prof. Charles T. Sullivan, B.A., Ph.D., D. Sc., F.R.S.C., Peter Redpath professor of pure mathematics, are the three staff members whose retirements were announced by university authorities recently.

In 1919 he was appointed university librarian and his duties were extended in 1927 to cover those of professor of library administration and director of the library school. In 1936 he was named a Fellow of the Royal Library Association. In July 1945 he celebrated 25 years as librarian of McGill.

Prof. Sullivan has been on the staff of McGill since 1908. Educated at Dalhousie University and the University of Chicago he has been a full professor since 1924 and chairman of the department since 1930. He is well known to many generations of students at McGill for his keen interest in the sports life of the University.

McGill University also announced yesterday the names of winners

R. V. CHRISTIE

Prof. Christie has been on the staff of McGill since 1907. A native of Halifax, N.S., Prof. Christie is a well-known consulting engineer, and has been connected with many large engineering projects in Canada. His text book on electrical engineering has been widely used by university students in Canada and the United States. He is a member and former treasurer of the Engineering Institute of Canada.

Prof. Lomer graduated from McGill in 1903, and was instructor in English and education there from 1904 to 1907.

DR. G. R. LOMER

of the Moyse Travelling Scholarships awarded for the first time since the end of the war during which they were suspended. The scholarships went to Robert Allan Spencer, son of Mr. and Mrs. C. A. Spencer, 5101 Western Avenue, and to Otto Louis Forchheimer, 455 Victoria Avenue. The scholarships are worth \$1,200 each.

Mr. Spencer, who is a former captain in the Canadian Army, will study on the scholarship at Oxford or Cambridge and in Europe. Mr. Forchheimer will study at Harvard and Princeton.

Gold Medalist Is to Work In W. Canada

Raymond Tait Affleck, of Montreal, listed in this year's graduating list of McGill University as winner of the Hugh McLennan travelling scholarship in architecture, the R.A.I.C. medal for the highest standing during the year, the Louis Robertson Prize in Design and the Lt.-Governor's Silver Medal, was busy over his drawing board in the office of a Montreal firm of architecture when The Gazette came calling yesterday.

Tall, thin, sandy-haired and amiable the young Montrealer who went to McGill after graduating from West Hill High school thought that after travelling in Europe for a while this summer, he would begin to practice architecture "somewhere in Western Canada."

Apparently a young man with definite ideas on life and architecture, he said that he preferred Western Canada, where he was born, "because they are a little more receptive to new ideas out there."

The younger men in architecture these days, he said, are trying to get away from "overly ornamental design to the more purely functional type of building," and he thought that these ideas would receive more encouragement in the traditionally free-and-easy West than in the more conservative East. He had high praise, however, for the excellence of the architectural course at McGill and for his teachers and classmates. "A very fine course, indeed," he said, "and grand people to work with."

He is going to Europe this summer primarily to attend the Prague Youth Festival which has received

New Building Planned for Med. Research

First details of the medical research that will be carried on in the new \$250,000 Donner Building for Medical Research now under construction, was announced recently by Dr. F. Cyril James. To be erected just southeast of the Medical building, the new research building will be the centre of McGill's attack on cancer.

Ground for the new building, a gift from William H. Donner, wealthy Philadelphian and former business associate of Andrew Carnegie, Andrew Mellon and other top U.S. industrialists and philanthropists, has already been broken. Principal James said last evening and, he continued: "We are hoping that the Donner Building will be completed by the end of the calendar year so that the facilities which I have foreshadowed will come into use before the end of the 1947-48 session."

Within the new building, he said, would be housed the Maxwell Lauterman Laboratories for experimental surgery, made possible by a gift from Miss Rose Anna Lauterman; the experimental laboratories of the Department of Psychology; the research laboratories in which Dr. J. E. Ayre will continue the investigations into the cytological diagnosis of cancer which have attracted world-wide scientific interest, and a new Research Institute of Bio-Physics under the direction of Dr. Kenneth Evelyn. This last project was made possible by a grant from Bristol-Myers Company of New York and will "cover the cost of a five-year program of investigation in the field of medical radioactivity and cardiovascular research."

University Suffers Great Loss As 3 Educators Retire

DEAN MEAKINS BIDS ADIEU Drs. Macmillan Keys, Meakins Are Leaving

Dear Mr. Editor,

The opportunity afforded by The Daily to say good-bye to undergraduates of McGill University is much appreciated. It has not been my privilege and enjoyment to know intimately as many as would have been my desire. To the students in general I wish you every happiness and success in the years to come. I dedicate to you an earnest prayer that you will hold fast to the spiritual ideals and intellectual responsibilities which I presume you cherish and will assume in the misty future which lies before you. Sanity and tolerance are rare attributes, but one should expect to find them in University graduates.

I think that I might be excused if, on this occasion, I devote much of this farewell message to the students of the Faculty of Medicine. They have been my special charge and if I may be so bold I would like to call them my friends. To them I would say, be of good heart. There is a destiny before you which may be beyond your present comprehension. The comfort and happiness of millions of people will be your responsibility. I want you to appreciate that there is a changing social order. This is not of today, but started decades ago as a small glow on the horizon. It has grown both from the sunrise and the sunset, until now its radiance is about to illumine the universe. This brilliance may blind some who will recede into selfish isolation, but to those of good heart and clear spirit its call will not go unanswered.

You are your brothers' keeper, both in health and in sorrow, so do not fail them or you will have been found wanting. To you, my many young friends, I say farewell.

J. C. Meakins, M.D., Dean, Faculty of Medicine.

Collip Named Dean of Med. At Western

It was announced recently that Dr. James B. Collip, C.B.E., director of the Research Institute of Endocrinology at McGill has been appointed Dean of the Faculty of Medicine and director of the Department of Medical Research at the University of Western Ontario.

Dr. Collip has been associated with McGill since 1927 when he was appointed chairman of the de-

DR. JAMES B. COLLIP

partment of biochemistry. He has been among the pioneers in the field of endocrinology, having been associated with Dr. Fredrick Banting in the discovery of insulin in 1922. He has been credited with the brilliant discovery of the parathyroid hormone more recently. Born in Belleville in 1892, he is a graduate of the University of Toronto. He is also a member of the Royal Society of Canada and the Royal Society of England as well as director of the division of medical research of the National Research Council.

The university will undergo a great loss at the end of the present session with the retirement of three of its most gifted educationalists. They are Dean C. J. Macmillan of the Faculty of Arts and Science, who has been with the university for 35 years; Dean J. C. Meakins of the Faculty of Medicine, who has also been a member of the staff for 35 years; and Dr. David A. Keys, who is leaving McGill to take charge of atomic energy research at Chalk River.

Dr. Macmillan

Dr. Macmillan, a native of Woods Harbor, P.E.I., received B.A. and M.A. degrees at McGill before entering Harvard University where he received M.A. and Ph.D. degrees. He joined the McGill staff in 1909 as a lecturer in English and by 1923 was chairman of the department and Molson professor of English language and literature. In 1940 he was named dean of the faculty of Arts and Science. He served overseas as an artillery officer in the First Great War and was twice mentioned in dispatches. In the Second Great War he served in a number of Government positions connected with the war effort and the rehabilitation program. Dr. Macmillan has always taken an active interest in the public life of Canada and served for a short time during 1930 as Federal Minister of Fisheries. He has served also on the Royal Commission of Maritime Claims in 1928 and on Royal Commission on Atlantic Fisheries in 1929. He is a noted author and lecturer on Canadian literature and folk-lore.

Dr. Meakins

Dr. J. C. Meakins is a native of Hamilton, Ont., who has won wide recognition in medical circles as head of one of the leading medical schools of the world and as one of Canada's leading physicians and educators. After a brilliant career as a student at McGill and in the United States, he was named lecturer in medicine at McGill in 1910 and named chairman of the department in 1924. In 1941 he was named dean of the faculty of medicine. In the First Great War he served with No. 3 McGill General Hospital overseas with the rank of lieutenant-colonel and in the Second Great War as deputy director-general of all professional activities in the Canadian Army.

He was president of the American College of Physicians in 1934-35 and the first president of the Royal Canadian College of Physicians and Surgeons serving from 1929, when the college was established, to 1931.

Dr. Keys

Dr. David A. Keys who will deliver the convocation address, had a brilliant reputation as a student and teacher on this continent and in Europe before coming to McGill as associate professor of physics in 1922. Born in Toronto, where he gained his M.A. degree, he did post-graduate work at Cambridge, England, and at Harvard, taking his doctorate at the latter university. In 1945 he was named Macdonald professor of physics at McGill and was made director of veterans' courses. He did wartime research of great value to the Dominion of Canada and the allied war effort, and early this year was named a Vice-president of the National Research Council in charge of the atomic energy plant at Chalk River.

No Ham—No Bananas Robs Bills in Icebox

Pietermaritzburg, South Africa—A hungry thief made an unexpected haul recently when he broke into the premises of a bar in the main street here, opened the refrigerator—and found more than \$100 (\$400 in notes).

To foil thieves, the money was not placed in the safe, which is only a few yards from the refrigerator. No attempt had been made to open the safe.

Apart from the money, a number of bottles of cordial and a bottle of sherry were also stolen.

GEORGIA—Barracks-Dorms

Nine barracks-type dormitories with a capacity for 342 single men students will be ready for occupancy at the University of Georgia by the beginning of the spring quarter on March 25. The units will contain 171 rooms and two men will be assigned to a room. The buildings, obtained from the Army, have been completely renovated and modernized.

CHAMPUS CAT

Reprinted from "The Variety" BEWARE THE POLLS

The following episode is to forewarn the reader of polls. Take it from us. No good ever comes of them. If someone approaches you with a notebook and pencil, kick him in the shins and grab the pencil—that's the only good you'll ever get out of it.

Here are the most notorious of the types in common use:

A. The Gallop Poll. In this poll they always try to cover the typical Canadian citizen, and never do. The people that are interviewed invariably turn out to be characters like Syko Nurotic, a clam digger in Saskatchewan, Clostro Fobia, head banana peeler for the Great Hall, and Perry Noyak, assistant chief Eskimo-Pie maker in Boredom's Toronto plant.

They ask such important questions as "Are you in favour of having the Atlantic Ocean on the East coast?" and give tabulated results like:

Yes 35%
No 28%
Never heard of it 8%
It's Mackenzie King's Fault 23%
The Engineers will move it 7%

This quiz usually followed by: Why did you add up the above figures to see if they totalled 100%? And the answers come back: Add? How do you do it? 51% (Continued on Page 7)

1,075 WILL RECEIVE DEGREES WEDNESDAY

14 Graduates Are Awarded Gold Medals

The following students have met all the requirements of their respective faculties and thereby are entitled to receive a degree from the university:

PASSED FOR THE DEGREE OF BACHELOR OF ARTS.

Men.

Ballon, Edward Maher, Montreal, Second Class Honors in Economics and Political Science. Ballon, Jonathan Daniel, Montreal; Bancroft, Henry Dunkin, Que.; Blackwood, John Anthony, Valois, Que. Second Class Honors in Latin and English; Blascik, Frank, Beauharnois, Que. Second Class Honors in Psychology. Brenhouse, Arnold Allan, Montreal; Brownman, Norman, Montreal; Burke, John Norris, Montreal West. Campbell, James Barrie, Westmount; Chan, Victor Oscar, British Guiana; Chipman, John Somerset, Santiago, Chile. First Class Honors in Economics and Political Science; Chipman, Warwick Noel Anthony, Montreal. First Class Honors in Philosophy and the Prince of Wales Gold Medal; Clark, Donald William, Calgary, Alta.; Common, David Lang, Westmount; Crystal, John Maxim Yousha Wolf, Montreal. Denman, Richard Edward Dixon, Outremont. Everson, Robert McDougall, Westmount. Fisher, Roswell Edward, Westmount Forrest, Archibald, Verdun, Second Class Honors in History; Fraser, Colin Williams, Castlegar, B.C. Garmaise, Arthur Franklin, Montreal, First Class Honors in English and Second Class Honors in Philosophy; Garmaise, Maurice, Jonathan, Montreal; Gill, Robert Mackenzie, Montreal; Goddard, Raymond Gilling, Smith Falls, Ont.; Gordon, Harold Boris, Outremont; Gosse, Richard, Fraser, Vancouver, B.C.; Greason, Franklin Donald, Montreal; Guess, Rae Douglas,

Montreal, First Class Honors in Economics and Political Science. Hampson, Harold George, Westmount, Second Class Honors in English Language and Literature; Harding, Lawrence Arthur Annesley, Bradford, England, Second Class Honors in Economics and Political Science; Huggard, Nathaniel Letchmere, Norton, N.B., Second Class Honors in Economics and Political Science; Hyndman, James Edward, Westmount, Second Class Honors in Economics and Political Science. Jarrett, James Henry, Montreal; Johns, Alan, Westmount. Kingsland, Robert Ross, Montreal, Second Class Honors in Economics and Political Science; Kravitz, Henry, Montreal. Laing, John Campbell, Montreal West; Lane, Alex William Alan, Montreal West, First Class Honors in Economics and History and the Lieutenant-Governors Silver Medal for History; Lash, Harry Newton, Westmount; Leffell, Bernard Allan, Outremont, Second Class Honors in Sociology; Lortie, Dan Clement, Montreal, First Class Honors in Sociology. MacDonald, John Allan, Ottawa, Ont., Second Class Honors in Economics and Political Science; MacIntosh, Robert Mallory, Stanstead, Que., First Class Honors in Economics and Political Science; MacLeod, George Stuart, Pittsburgh, Pa.; McGlade, Thomas Hugh, Smiths Falls, Ont., Second Class Honors in Economics and Political Science; Mennie, William Alexander, Westmount, Second Class Honors in Economics and Political Science; Motyer, Robert Henry, Pembroke, Bermuda; Mowat, John Bruce, Westmount, Second Class Honors in Economics and Political Science; Mitchell, George Duncan, Westmount. Newcombe, Edmund Peter, Ottawa, Ont.; Nickson, Reginald Blair, Montreal; Norworthy, Hugh Hoyle, Westmount. Patterson, Wilbur Rothwell, Montreal West; Pearcey, Ralph David, Kelowna, B.C.; Pickup, Thomas, Strathmore, Que.; Piper, John Trousne, Montreal; Postmans, Robert Jean Pierre, St. Eustache, Que.; Pratt, Robert Cranford, Montreal, First Class Honors in Economics and Political Science; Purves-Smith, James Ronaldson, Montreal. Rankin, Winston Bertram, Georgetown, British Guiana, Second Class Honors in Psychology; Richards, Joseph Reynolds Huntly, Montreal. Sargent, Arthur Munro, Westmount, Second Class Honors in Economics and Political Science. Shepherd, William Roy, Montreal, First Class Honors in Sociology; Snyder, Irwin Edgar, Montreal; Spiller, Ernest Reginald, Montreal; Stegmayer, Henry Eugene, Montreal; Stewart, Gordon Kennedy, Westmount, Second Class Honors in History. Taylor, John Horsfall, St. Lambert, Que.; Thomas, William Desmond, A. Beaconsfield, Que. Wake, Frank Robert, Montreal, Distinction in the General Course; Weintraub, William, Verdun; Welton, John Cathcart, Montreal, First Class Honors in Economics and Political Science; the Allan Oliver Gold Medal and the Allan Oliver Fellowship; Wood, Gordon Paget, Montreal, Que.; Wright, Stuart Chapman, Quebec, Que.

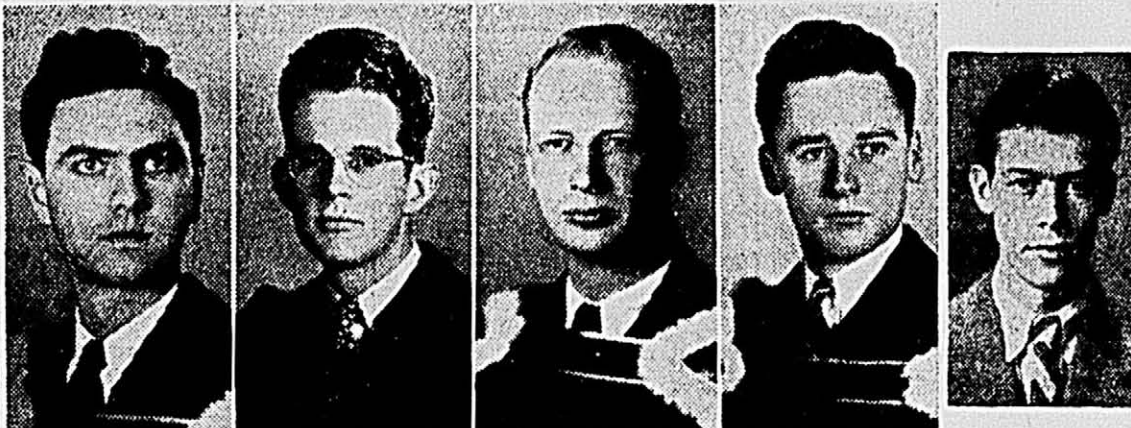

Women.

Aikman, Phyllis Hazel, St. Kitts, B.W.I., First Class Honors in English Language and Literature; Aitchison, Marion Elizabeth, Hampstead, Allam, Joan, Montreal, Distinction in the General Course; Allen, Rose Marie, Westmount; Ambbridge, Cicely Barlow, St. Catharines, Ont.; Atkinson, Lillian Jeanne, Kempville, Ont., First Class Honors in English Language and Literature and the Shakespeare Gold Medal; Atkinson, Mary Elizabeth, Montreal; Austin, Barbara Gertrude, Granby, Que. Baxter, Eleanor Cowden, St. John, N.B.; Beck, Ellen Signe, Montreal; Black, Annie Gertrude, Oak Lake, Manitoba, Great Distinction in the General Course; Blackwell, Agnes, Westmount, Que.; Braunstein, Goldie, Montreal; Brown, Hedwig Wood, Apopauag, Rhode Island, Distinction in the General Course. Campbell, Freda Stearns, Timmins, Ont., Second Class Honors in French; Chapman, Isabel Margaret, Westmount; Clouston, Frances Marjorie, Huntington, Que. Darragh, Shirley Elvira, Montreal; Davis, Diana Mary, Como, Que.; Davis, Joan, Reading, Mass.; Dewar, Helen Kiely, Charlotte-town, P.E.I.; Dias, Merle Ruth, Jamaica, B.W.I., First Class Honors in French and History; The Lieutenant-Governor's Gold Medal for Modern Languages; Dick, Brenda, Rone, New York; Douglas, Dorothy Anne, Pittsfield, Mass.; Draper, Catherine, Bedford, Que.; Duffy, Gene Margaret Spiers, Montreal; Dugan, Jean Lennox, Montreal; Duguid, Margaret, Ottawa, Ont. Edwards, Elizabeth Gordon, Ottawa; Eisele, Eleanor, Montreal; Ekers, Catherine Charlotte, Outremont; Emory, Margaret Noreen, Edmundston, N.B.; Epstein, Eileen, Montreal. Fawcett, Vera Marion, Huntingdon, Que. The Lieutenant-Governor's Silver Medal for Great Distinction in the General Course; Fenton, Barbara Sobright, Ottawa, B.W.I.; Fox, Pamela, Barbados, British Guiana, First Class Honors in English Language and Literature; Frith, Helen Ruth, Bermuda; Fullerton, Sydney Elizabeth, Cobourg, Ont.; Furness, Anne-Marie, Montreal; Fyles, Margaret Saunders, Vermont, U.S.A. Ghent, Lila Rosenzweig, Outremont, First Class Honors in Psychology; Grigg, Mae Lorraine, St. Lambert, Que. Hanson, Florence Mary, Montreal; Hart, Barbara Winnifred, Montreal; Hill, Peggy Janet, Westmount; Holden, Mary Allison, Montreal; Howell, Helen Marie, Rockford, Ill., First Class Honors in French and the French Government Medal; Hughes, Pauline Currie, Montreal; Hunter, Catherine Rae, Montreal. Jackson, Jasmine Dorothea Mary, Montreal, First Class Honors in English Language and Literature; Jackson, Kathleen, Town of Mount Royal, Distinction in the General Course; Johnston, Eileen V., Montreal. Kirkland, Marie-Claire, Ville St. Pierre, Que., French Government Medal. Lazare, Myra Sybil, Westmount; Leith, Gertrude Mary, St. Johns, Nfld.; Le Mesurier, Mary Stuart, Westmount, Que., Second Class Honors in French; French Government Medal; Lindsay, Millicent Ann, Montreal. Macario, Joyce Natalie, Westmount; MacDermot, Anne Langdon, Montreal; MacGibbon, Marion Isabel, Montreal; MacKay, Anne Elizabeth, Halifax, N.S.; MacKintosh, Elizabeth Ramsay, Montreal; Marion, Josephine Ann, Hudson, N.Y., Second Class Honors in English and Second Class Honors in Sociology; McGregor, Shirley Marjorie, New Glasgow, N.S.; Menkes, Helene Natalie, Montreal; Mesnet, Marie-

Medalists Announced

ROBERT G. MEEK of Hampstead, who has been awarded the British Association Medal in civil engineering and also the Robert Forsyth Prize.
HOWARD K. RAE of the Town of Mount Royal, who has been awarded the British Association Medal in chemical engineering.
H. N. SHAYNE of Montreal, who has been awarded the Sir Edward Beatty Gold Medal for the highest aggregate in the School of Commerce.
R. K. EADIE of Montreal, who has been awarded the British Association Medal in electrical engineering.
N. J. NADLER of Montreal, who has been awarded the Anne Molson Gold Medal for mathematics and natural philosophy.

LEO P. GAUTHIER of Cornwall, Ont., who has been awarded the British Association Medal in engineering physics.
J. C. BECK of Montreal, who has been awarded the Holmes Gold Medal for the highest marks in the medical curriculum.
PHILIP GIBBON of Montreal, who has been awarded the Montreal Branch, American Society for Metals prize in metallurgical engineering.
J. M. BENTHAM of the Town of Mount Royal, who has been awarded the British Association Medal in civil engineering.
W. N. A. CHIPMAN who had first class honours in philosophy and was awarded the Prince of Wales Gold Medal.

MERLE R. DIAS of Halfway Tree, Jamaica, B.W.I., who has been awarded the Lieutenant-Governor's Gold Medal for modern languages.
L. J. ATKINSON of Kempville, Ont., who has been awarded the Shakespeare Gold Medal for English language and literature.
R. P. DUNDASS who has been awarded the Gold Medal given to the student standing first in the science and practice of dentistry.

R. STEWART WILLIS, of Montreal, who has been awarded the Gold Medal for highest standing in the faculty of law.

ernor's Silver Medal for Great Distinction in the General Course; Fenton, Barbara Sobright, Ottawa, B.W.I.; Fox, Pamela, Barbados, British Guiana, First Class Honors in English Language and Literature; Frith, Helen Ruth, Bermuda; Fullerton, Sydney Elizabeth, Cobourg, Ont.; Furness, Anne-Marie, Montreal; Fyles, Margaret Saunders, Vermont, U.S.A. Ghent, Lila Rosenzweig, Outremont, First Class Honors in Psychology; Grigg, Mae Lorraine, St. Lambert, Que. Hanson, Florence Mary, Montreal; Hart, Barbara Winnifred, Montreal; Hill, Peggy Janet, Westmount; Holden, Mary Allison, Montreal; Howell, Helen Marie, Rockford, Ill., First Class Honors in French and the French Government Medal; Hughes, Pauline Currie, Montreal; Hunter, Catherine Rae, Montreal. Jackson, Jasmine Dorothea Mary, Montreal, First Class Honors in English Language and Literature; Jackson, Kathleen, Town of Mount Royal, Distinction in the General Course; Johnston, Eileen V., Montreal. Kirkland, Marie-Claire, Ville St. Pierre, Que., French Government Medal. Lazare, Myra Sybil, Westmount; Leith, Gertrude Mary, St. Johns, Nfld.; Le Mesurier, Mary Stuart, Westmount, Que., Second Class Honors in French; French Government Medal; Lindsay, Millicent Ann, Montreal. Macario, Joyce Natalie, Westmount; MacDermot, Anne Langdon, Montreal; MacGibbon, Marion Isabel, Montreal; MacKay, Anne Elizabeth, Halifax, N.S.; MacKintosh, Elizabeth Ramsay, Montreal; Marion, Josephine Ann, Hudson, N.Y., Second Class Honors in English and Second Class Honors in Sociology; McGregor, Shirley Marjorie, New Glasgow, N.S.; Menkes, Helene Natalie, Montreal; Mesnet, Marie-

B.W.I., First Class Honors in Biochemistry; Federer, Henry E. C., Westmount; Forchheimer, Otto Louis, Westmount; Fournier, Emery Leo, Ottawa, Ont., Second Class Honors in Biochemistry; Franks, John Gordon Wilson, Verdun; Fricker, David Hamilton, Montreal; Fridhandler, Louis, Montreal. Gavriloff, Thomas Johnson, Montreal West; Gillespie, Andrew Erroll, Victoria, B.C.; Godlevsky, Sam, Montreal; Goldfarb, Lionel Joseph Bernard, Montreal, First Class Honors in Pure and Applied Mathematics; Gombert, Charles, Verdun; Goring, Vincent Ingham, Trinidad, B.W.I.; Grant Harold Edward, Montreal; Greenspan, Joseph Bernard, Montreal; Guest, Douglas Burwell, Renfrew, Ont.

Hale, Burt Barlow, Montreal West; Hale, Tom Reid, St. Lambert, Que.; Hampson, Lawrence Garth, Montreal; Henry, John Stewart, Westmount; Herer, Moses Lionel, Montreal; Herlinger, Richard, Ottawa, Ont.; Herlick, Sam, Montreal; Heuser, Edward Alan, Montreal, Distinction in the General Course; Hosen, Esau Abbas, Trinidad, B.W.I.; Hubel, David Hunter, Outremont, First Class Honors in Mathematics and Physics. Ker, Thomas Douglas Innes, Westmount; Keys, John David, Montreal West, Second Class Honors in Mathematics and Physics; Kong, Laurence, Trinidad, B.W.I. Lane, Frederick William, Glace Bay, N.S.; Lapointe, Robert E., Buckingham, Que.; Lasch, Ernest, Montreal; Lee, Carl Alexander Roland, Trinidad, B.W.I.; Lee, Kendall Alexander, Trinidad, B.W.I.; Levy, Jacob Victor, Westmount; Logan, Ralph Andre, St. Laurent, Que., First Class Honors in Pure and Applied Mathematics; Lowe, Howard Thomas, Revelstoke, B.C.

Mackenzie, Charles Ronald Straghan, Barbados, B.W.I.; MacKenzie, Hallam Neil Stragan, Barbados, B.W.I., First Class Honors in Zoology; MacLeod, John William, Quebec City; Marcovitch, Jack Harris, Montreal; Margolis, Bernard, Montreal, First Class Honors in Pure and Applied Mathematics; Matzko, Alexander, Montreal; McDermot, Henry Lloyd, Montreal West, First Class Honors in Chemistry; Millar, Charles Gordon, Montreal West; Milne, Ian George, Montreal, Distinction in the General Course; Milne, James Burpee, New Glasgow, N.S.

Nadler, Norman J., Montreal, First Class Honors in Mathematics and Physics and the Anne Molson Gold Medal. Pearce, Robert Michael, Town of Mount Royal. Beatrice, Ottawa, Ont., Second Class Honors in English Language and Literature; Moffatt, Marion Jane, Montreal; Munro, Annie Beryl Archibald, Town of Mount Royal. Ordover, Hinda, Outremont; Osborne, Julia Kate, Hamilton, Ont.; Palker, Toby, Outremont; Paravicino, Judith Ruth, Barbados, B.W.I.; Parris, Barbara Elaine, Jamaica, B.W.I.; Parry, Hazel, Montreal; Paterson, Joan Isabella, Ottawa, Ont.; Petersen, Dorothy Anne, Montreal; Playfair, Laura Joyce, Hampstead, Que.; Popper, Lya M., Montreal, Second Class Honors in Economics and Political Science; Porte, Margaret, Sydney, N.S., Distinction in the General Course; Prados, Maria Isabel, Montreal, Second Class Honors in Psychology; Proctor, Ruth, Berthierville, Que.

Robb, Helen Margaret, Montreal; Royal-Gagnon, Suzanne, Regina, Sask. Sampson, Cicely H. Manley, Montreal; Schecter, Lorna, Montreal, Distinction in the General Course; Senuik, Sophie, Montreal; Siotemaker de Bruine, Christine, Darrien, Conn.; Smith, Alice Black Borden, Annapolis Royal, N.S.; Smith, Marion Elsie, Quebec City; Sperber, Evelyn Jean, Westmount; Steeves, Doris Elizabeth, Montreal; Stobie, Hope Meribeth Cameron, Belleville, Ont.; Stopps, Lillian Violet, Cochrane, Ont.; Stubbs, Mary Elizabeth, East Aurora, N.Y., Second Class Honors in Psychology. Taylor, Greta, Montreal; Taylor, Olive Moss, Westmount; Thomson, Hilda Margaret, Quebec City, Distinction in the General Course; Trotter, Florence Elizabeth, Medicine Hat, Alta., First Class Honors in English and the Peterson Memorial Prize for Creative Writing; Tyndale, Lois Anne, Westmount. Verriest, Anne Marie, Hanover, N.H., Distinction in the General Course. Wallace, Barbara Marion, Montreal; Wallace, Phyllis Jean, Montreal; Weller, Francine, Westmount; Williams, Pearl Marjorie, Trinidad, B.W.I.; Wirth, Audrey Bertha Catherine, Outremont, Distinction in the General Course.

Wallace, Barbara Marion, Montreal; Wallace, Phyllis Jean, Montreal; Weller, Francine, Westmount; Williams, Pearl Marjorie, Trinidad, B.W.I.; Wirth, Audrey Bertha Catherine, Outremont, Distinction in the General Course. Passed For The Degree of Bachelor of Science Men: Barza, Sidney, Montreal; Bell, Christopher Keith, Montreal, Second Class Honors in Geological Sciences; Berber, Boris, Montreal; Bigg, Hugh Traill, Montreal, Distinction in the General Course; Blake, Donald Alan Wright, Saint John, N.B.; Blank, Harry, Montreal; Bloom, Jacob Nelson, Montreal; Board, Francis Armstrong, Washington, D.C., Second Class Honors in Zoology; Bourbonniere, Gerald, Town of Mount Royal; Boyle, Wilford Sterling, Montreal, Second Class Honors in Mathematics and Physics; Breitman, Leo, Montreal, First Class Honors in Chemistry and the Anne Molson Prize; Brett, Robert Lawrence, Ottawa, Ont.; Brown, Robert Melbourne, Richmond, Que., First Class Honors in Chemistry; Burns, Stuart James, Town of Mount Royal; Burritt, Warner John Roger, Timmins, Ont.; Charness, Gerald Stephen, Outremont; Clendinning, Roy Sinclair, Montreal; Climan, David Arthur, Montreal, Distinction in the General Course; Clogg, Donald Keith, Westmount; Converse, Lloyd Webb, Montreal; Culver, David Michael, Montreal. Diner, Moses Nathaniel, Westmount, Second Class Honors in Biochemistry. Elkington, William Galt, Victoria, B.C., Distinction in the General Course. Farfan, Henry Francis, Trinidad,

of Mount Royal, Second Class Honors in Mathematics and Physics; Pirie, Edward Ross, Ste. Anne de Bellevue, Que.; Pollitt, Edward Ian Keith, Lake Megantic, Que.; Polonsky, Albert Martin, Outremont; Popham, James Hall, Ottawa, Ont. Randlett, Ralph Patterson, Verdun; Ray, John Leonard, Westmount; Rosen, David, Montreal, Great Distinction in the General Course; Rosenfeld, Isadore, Montreal; Routly, Paul McRae, Montreal West, First Class Honors in Pure and Applied Mathematics; Ryan, James Vincent, St. John's, Nfld. Salisbury, Norman James, Montreal; Searth, Alastair George, Ste. Anne de Bellevue, Que.; Scott, David Paul, Montreal, Second Class Honors in Zoology; Scott, Iain MacMaster, Westmount; Shriar, Sam, Montreal; Silverman, Albert Jack Allan, Montreal, Distinction in the General Course; Sims, Richard Paul Andrew, Ottawa, Ont., First Class Honors in Chemistry; Sirola, Laizer, Montreal; Sluzar, Roman Leo, Montreal; Smith, Herbert Bryant, Windsor, Ont.; Smith, Keith Emil, Yvelerton, Jamaica, B.W.I.; Smith, Kenneth George Watson, Montreal, Distinction in the General Course; Smith, Lawrence Arthur Price, Montreal; Solomon, Sam, Montreal, Second Class Honors in Chemistry; Stalker, Merrill Eric, Ormstown, Que., Distinction in the General Course; St. Arnaud, George Andre, Shawinigan Falls, Que.; Summerby, John Hall, Ste. Anne de Bellevue, Que., First Class Honors in Mathematics and Physics; Swaine, Frederick McCoy, Westmount, Distinction in the General Course. Taylor, John Leslie, Ormstown, Que.; Teuscher, Eric U., Montreal; Throop, Wellington Allan, Frankville, Ont.; Topkins, Richard Marvin, Westmount. Van Patter, Hugh Terry, Westmount, Distinction in the General Course. Walcott, David Bruce, Barbados, B.W.I.; Walker, Bruce Edward, Montreal; Wallington, Henry P., Hamilton, Bermuda; Webster, Sydney Gordon, Barbados, B.W.I.; Whiting, Douglas Patterson, Montreal West; Wilson, Geoffrey Gordon, Saint John, N.B.; Wilson, Ian Chisholm, Quebec, Que.; Wood, Herman Clifford, Evanston, Ill. Zentner, Eugene Jacob Rudolph Henry, Montreal; Zimmerman, Jack, Montreal. Women. Abbey, Sheila Theima, Montreal; Abramson, Ruth, Montreal; Anderson, Harriet Elizabeth, Westmount, Distinction in the General Course.

Berish, Hazel, Montreal; Berkinshaw, Daphne Nan, Toronto, Ont.; Bogoroch, Rita, Montreal; Brewer, Frances Lillian, Montreal; Bunn, Barbara Isabel, Red Deer, Alta.; Burden, Dorothy Anne, Westmount, Distinction in the General Course; Burnet, Kathleen Joan, Calgary, Alta. Campbell, Dorothy Joan, Bermuda, B.W.I.; Christie, Frances Helen, Toronto, Ont. Faughnan, Jeanne Elizabeth, Town of Mount Royal; Finestone, Dorothy Ellen, Montreal; Fitch, Naomi Selma, Westmount, First Class Honors in Zoology and the Fantham Memorial Prize; Fochs, Anita Marion, Westmount, First Class Honors in Zoology and the Major Hiram Mills Gold Medal. Girvan, Madeleine Louise, Victoria, B.C.; Glass, Dorothy Frances, Winnipeg, Man. Hale, Jacqueline Macaulay, Westmount; Hamilton, Mary Evelyn Banfill, Toronto, Ont.; Haney, Norman, Greenwich, U.S.A.; Hummel, Catherine Mary, Victoria, B.C. Irvine, Pamela Gordon, Montreal, Great Distinction in the General Course. Jeffrey, Claire Osborne, Montreal, First Class Honors in Chemistry; Johnston, Shirley Fenton, Summit, N.J. Kielland, Helene Wencke, Montreal West; Kozluk, Anne, Edmonton, Alberta. Lax, Frances, Outremont; Lucas, Dorothy Ada, St. Lambert, Que. Marcovitch, Sylvia Ethel, Outremont; Martin, Helen Jean, Montreal, Second Class Honors in Functional Biology; Mason, Joan Lippitt, Montreal, Governor-General's Silver Medal for Great Distinction in the General Course; McCoy, Althea Cleveland, Montreal; McCoy, Gertrude Eileen, Montreal; McGill, Isabel Margaret, Westmount; McLeod, Rosemary Jean Leacock, Barbados, (Continued on Page 5.)

Romeo and Juliet Shakespeare Society's Yearly Production

By DUSTY VINEBERG

"Romeo and Juliet" was the Montreal Shakespeare Society's choice for its third annual production at the beginning of this month in Moyse Hall. Their presentation, excellently directed by Charles Rittenhouse, resulted, as Montrealeers are beginning to take for granted, in a delightful staging of the play, though it did not, we think, attain the inspired level of last year's "King Lear."

The presentation of "Romeo and Juliet" left no doubt as to the interpretation of one of the earliest Shakespearean tragedies. Here were no solemn, serious lovers, but two very young and impetuous people; their appealing youthfulness immediately gained the sympathy of the audience, made Romeo's swift passion for Juliet comprehensible without endangering his sincerity, and pervaded the entire play with a vividness which is difficult to dispel. It seems to me, however, that the audience ought to feel from the opening skirmish of the play that doom is inevitable for these two unfortunately mated lovers. There is, after all, the old blood feud between Montague and Capulet, and something of the depth of the tragedy was sacrificed by the lightness of a great deal of the first half of the play. The tension, having been very far relaxed, never mounted high enough to indicate the full intensity of the final sombre ruin.

The settings by Herbert Whitaker were in key with this general approach to the play. Perhaps the pink and blue walls and galleries of the house of Capulet were too much in the comic spirit to aid the play's later development, in spite of the wonderfully ingenious painted curtain of Verona, and the piece de resistance—the tower chamber. In the tomb scene, Juliet's balcony became the tower of the Capulet monument, against an eerie background of sky and graves. This use of the tower was, I think, one of the high points of the play. The costumes, however, in spite of their magnificence, cannot be compared with those of "King Lear," either for their psychological effect, or for their originality. The

lighting was poor. In spite of Moyse Hall's manifold imperfections, Juliet should not have been called upon to say "Thou know'st the mask of night is on my face," when she appeared to be standing in the midst of a burst of brilliant sunshine. This misplaced lighting may have been due to understandable eagerness to furnish forth the balcony scene with the brightest possible illumination—and indeed it would have been a shame to have missed any of it.

In other reviews which have appeared long before this one will, Kenneth Leigh-Smith as Romeo, Betty Taylor as Juliet, her nurse, Maud Whitmore, and most of the cast have received the plaudits due to them. It only remains for us to single out our favorites. Alfred Gallagher as Friar Lawrence, was, as he always is, impeccable. He made the Friar's comparatively small part a memorable one, and John Drexler's Mercutio, was, in our opinion, the other outstanding piece of acting. Mr. Drexler gave us one of the moments when he seemed to be living in the play, hanging breathless on his rendering of the Queen Mab speech. It was, altogether, a most spirited and touching Mercutio who walked upon stage, and a brilliant piece of acting.

To sum up, in comparison with last year's "King Lear," in spite of good acting, Mr. Rittenhouse's excellent direction, and still ingenious sets, the Shakespeare Society production lacked accumulated power. The Elizabethan "Romeo and Juliet" must have been less deliberately patterned. Except for odd high moments it was more of a Shakespearean spectacle than the tragic development of an unfortunate love. Whereas "King Lear" left one feeling that something new and original had been created on the stage, "Romeo and Juliet," in spite of the often successful effort of the cast to animate it, lacked the artistic vitality of "Lear."

Sheffield, England.—(C)—James Ibbotson, retired Sheffield chief inspector of police, has won £30,369 (\$121,476) in a football pool.

TWO PLAYS...CONCERTS...A FILM

Joan of Lorraine

A.M.-C.D.

The MRT chose for its final production this season an ambitious project, and they are to be congratulated on the degree of success which they attained.

"Joan of Lorraine" was undoubtedly one of their best efforts of the season. A play within a play, it tells the story of Joan, and simultaneously shows the conflict between the "director" of the play and the actress portraying "Joan." The audience watches a rehearsal where this struggle reaches a climax and is finally resolved.

This play requires an exceptional actress in the leading role, and to Marjorie Brewer as "Joan" goes much of the credit for the MRT success. She gave a convincing performance, shifting easily from the role of "Joan" to that of the "actress," and made believable the rather poorly defined and unsatisfactorily explained reason for the disagreement between the "actress" and the "director." Another outstanding performance was that of Myron Galloway as the "Dauphin."

There were a number of smaller character roles which were almost invariably well acted. The most notable of these was Griffith Brewer as the poet "Alain Chartier." Also deserving of mention were Phyllis Schechter, Gillian Hessey-White, Rosanna Seaborn, Alice Rogers, Shirley Elkin, Paul Blouin and Peter Armstrong.

It was good entertainment, but not a masterpiece. The play by Maxwell Anderson is not his best, and it was doubtless here that at least part of the trouble lay. We have the feeling that the author was trying to say too much in one play. Either the story of Joan by itself, or that of the actress by itself would have been enough.

The weakest link in the play, in our estimation, was the part of "Jimmy Masters," the "director." However, we were unable to determine to our own satisfaction whether the trouble was due to poor acting, inadequate direction, poor writing, or a combination of all three.

With this type of play there is only a limited scope for scenery and lighting, since it is impossible for the audience to distinguish how much is intended for the story and how much is intended for the atmosphere of the "theatre in rehearsal." Mr. Berends set as usual made the Playhouse stage look about twice the size one knows it must be, and the lighting of the production was adequate for visibility.

La Forteresse

After many interesting and entertaining "shorts" the Canadian Motion Picture Industry has produced its first full length film: "La Forteresse" (English title, "The Citadel"), and we are happy to report that the movie is a complete success. The plot is suitable for a first effort: it is an exciting mystery story. The actors are skilled; the photography good. There is a beautiful background: the historic city of Quebec. And music lovers are gratified by Andre Mathieu's fine piano concerto, very well interpreted by the young Canadian pianist Neil Chotem.

"La Forteresse" is notable because it is made entirely by Canadians, and it emphasizes Canadian material (Quebec, Mathieu's Concerto). The film begins and ends with a couple in a sleigh, listening to a story told by a "typical" (and very charming) old French driver. Thus the film starts and closes in the truly Canadian atmosphere of the oldest city of the country.

The sleigh driver tells the story of Marie Roberts, and of Albert Frederic, the rich patron of the arts. Soon the scene changes and we see Marie, the pretty American Reporter (Nicole Germain). Interviewing an old lady who is about to die. The latter whispers—very exciting—that her fiancé's death was not an accident, but murder. Then we see the villainous Frederic (Jacques Auger) forcing his young protegee, the composer Michel Lacoste (Paul Dupuis) into murdering the pretty Marie. There are many exciting moments, and a climax builds up, while the composer's Concerto is being played for the first time.

The story is good, but partly a formula. The finish is rather far fetched. A few faults can be found. At times the pace is too slow. Some details are troubling (How did the old woman get the keys to Marie? Where did Michel live after he committed the murder? But this is a movie to entertain, and although the pace made some of the audience impatient, the troubling details were not noticed.

Andre Mathieu's Concerto is a mature work, romantic and tuneful. Neil Chotem's playing is excellent. The actors are all good. The principals are to be highly praised. The "bit parts" are also very well played. Especially noteworthy are the performances of the hotelkeeper and of the sleigh driver.

L. P.

Concerts

There has been great musical activity in the city since the publication of the last "Daily". The following is a brief resume of some of what has passed between the ears of Montreal's musical public in the past two months.

Shea and Goodwin

The most enjoyable playing of the season was heard by those who were present at the performance of the Cesar Franck violin sonata by D'Arcy Shea and Lois Goodwin, two students at the McGill Conservatorium of Music. The playing was of sufficiently high calibre to have compared favourably with anything that any of today's concert artists could have done. Miss Goodwin seemed to be afflicted with a bad case of the "jitters" and Mr. Shea has a bad habit of sneaking up on his high notes but these faults, if indeed they may be called faults, in no way detracted from their really enjoyable performance. It is to be hoped that Montreal will soon hear much more of their sterling work.

Schipa and Miguel

Tito Schipa was heard in recital at His Majesty's in a carefully chosen program which showed his ageing voice to its best advantage. Mr. Schipa is undoubtedly a great artist and it would be a great pleasure to hear him again. He was assisted at the piano by Pablo Miguel whose sympathetic accompaniments and sensitively played solos made one wish that more performers would bring at least as good assisting artists.

Loyonnet

Loyonnet who appeared for the first time in Montreal this spring gave performances of works by Scarlatti, Bach, Couperin, and Beethoven that were unrivalled by anything this reporter has heard. It has been rumoured that he will return next year to Montreal in performance of the Thirty-two Beethoven piano Sonatas. It will be the first time that this will have been attempted in Montreal. On the strength of M. Loyonnet's previous performances it is safe to recommend this series to all.

Stern

Isaac Stern appeared at the Ladies' Morning Musical Club and proved once again what a really fine artist he is. His performance of the Brahms Sonata Op. 108 will certainly be remembered by all those fortunate enough to be in the audience.

Nino Vallin proved to her listeners that she has lost none of her inimitable charm, personality and artistry in the years that we have been unable to hear her.

Carl Weinrich gave a recital at Notre Dame Cathedral. The most outstanding features of his performance were his clarity of thought

and execution so amply evident in the Bach works on the program.

Szigeti

Joseph Szigeti was heard in two unforgettable performances. The Brahms Violin Concerto was heard in conjunction with the orchestra of Les Concerts Symphoniques and in recitals we heard inimitable playing in the "La Folia" by Corelli and Beethoven's "Kreutzer" Sonata.

The McGill Conservatorium Orchestra under Dean Douglas Clarke was heard in a performance that was easily as good as any orchestral concert by a Montreal professional group. The soloist unfortunately

14 Graduates—p. 4

B.W.I. Second Class Honors in the Biological Sciences; Mooney, Shirley Marylyn Irene, Montreal; Moore, Marjorie Jean, Montreal; West; Moriarty, June Marie, Westmount; Morley, Pamela Caroline, Victoria, B.C.; Mueller, Kate Margaret, Montreal; Murray, Gillian Leslie, Long Island, N.Y.

Nelson, Joan Alexander, Montreal; Parker, Barbara Isabel Jean, Montreal; Planck, Betty Alice, Montreal; Porter, Kathryn Christine, Calgary, Alta.; Powell, Mary C., Westmount.

Rabinovich, Ethel, Montreal, Second Class Honors in Chemistry; Rainey, Eva Kathleen Younger, Westmount; Richardson, Dorothy Nora, Montreal, Second Class Honors in Pure Mathematics; Riddell, Marion Isabel, Westmount; Rigby, Elizabeth Caroline Grey, Montreal, First Class Honors in Mathematics and Physics.

Schecter, Anita, Outremont, Distinction in the General Course; Scott, Jean Pattison, Westmount; Great Distinction in the General Course; Shirley, B. Scott, Montreal; Seale, Elizabeth Elaine, Montreal, Distinction in the General Course; Sheik, Rosey Pham-Nida, Trinidad, B.W.I.; Sim, Violet Nora, Hull, Que.; Stanforth, Joan Dewar, Westmount; Swett, Ruth Ann, St. Lambert, Que., Second Class Honors in Bacteriology and Immunology.

Thow, Dorothea Cora Weir, Montreal; Timmins, Julia Edna, Westmount.

Watson, Helen Doddridge, Richmond, Que.; Watson, Louise Mary, Westmount; Weisman, Isobel Violet, Town of Mount Royal.

Passed For The Degree Of Bachelor Of Commerce

Abramovich, Manuel, Outremont; Allan, James Stuart, Montreal West; Arnold, Milton Earle, Montreal; Austin, Joseph Douglas, Montreal; Barden, Leslie William, Montreal; Bell, Marcia Rohrich, Outremont, Distinction in the General Course; Bennie, John Donald, Beachburg,

Ont.; Berlind, George, Outremont, Distinction in the General Course and the F. W. Sharpe Prize in Accountancy; Black, Desmond Ernest, Buckingham, Que.; Boles, Marcel, Montreal; Boissonault, Joseph Paul Albert, St. Johns, Que.; Bradwell, George Arthur, St. Lambert, Que.; Campbell, Clive Noel, Jamaica, B.W.I.; Campbell, Howard Edward, Trail, B.C.; Distinction in the General Course; Capper, John Alexander, Westmount; Carswell, William Donald, Montreal; Chamandy, Edward Robert, Montreal; Chenowath, Ian Bryce, Montreal.

Desautels, Robert Victor, Montreal; Dougherty, John Paterson, Westmount; Duff, James Robertson, Montreal West; Dumbrille, Colin Campbell, Montreal, Distinction in the General Course.

Ellis, Barton Shuttleworth, Toronto, Ont.

Freeman, William John Leney, Montreal.

Gillespie, Lyall M., Montreal; Glen, Ian, Town of Mount Royal; Goldberg, Dan, Outremont; Goldstein, Julius Harold, Montreal, Second Class Honors in Economics; Gosse, Fred Paul, Montreal, Second Class Honors in Economics; Guttman, Stanley Harold, Montreal.

Hoffmann, Solly, Montreal, First Class Honors in Economics; Horwood, Robert Alex, Montreal; Hunt, Ernest Thurston, Town of Mount Royal.

Jackson, Peter, Town of Mount Royal; Johnstone, George Brown, Westmount.

Kavanagh, Henry Gordon, Montreal; Kerr, Stuart Augustine, Pt. Claire, Que. Distinction in the General Course; Knopfler, Anne Elizabeth, Duparquet, Que. Distinction in the General Course.

Ladd, Dean Harvey, Bondville, Que.; Lamb, Murray Barbour, Pt. Anne de Bellevue, Que.; Lester, William Arthur, Kitchener, Ont.; Lorimer, Donald Bruce, Westmount; MacDonald, Kenneth John, Timmins, Ont.; MacKenzie, Lloyd Kenneth, Montreal; MacKenzie, John Price Sinclair, Westmount; MacKinnon, Floyd, Charlottetown, P.E.I.; MacLean, William Brown, Pictou, N.S.; Mair, Dennis Egbert, Jamaica, B.W.I.; Marks, David Morton, Westmount; Marsh, Edward Irwin, Montreal; Maynard, Charles Edouard, Montreal; McGill, Allan Clifford, Westmount; McIlhorne, Robert Francis, Montreal; Michel, Lucien George C., Outremont; Miller, Marilyn Elizabeth, Montreal; Mitchell, James David, Montreal; Moore, John Albany, Westmount; Morin, Louis Joseph Zepherin, Kamowas, Que.

Neftin, Morris, Montreal, Second Class Honors in Economics; Notar, Stephen, Montreal, Second Class Honors in Economics.

Oliver, Aurum Mortimer, Outremont, Distinction in the General Course.

Reid, William James, Outremont,

First Class Honors in Economics and the Lieutenant-Governor's Silver Medal; Ross, Denis Allan, Ottawa, Ont.

Schachter, Sidney Arthur, Montreal, Second Class Honors in Economics; Seagram, Thomas Blair, Waterloo, Ont.; Shayne, Herbert Maxwell, Westmount, First Class Honors in Economics and the Beatty Gold Medal; Shaw, Miriam Elizabeth, Shawinigan Falls, Que.; Smith, Allison Herbert, St. Lambert, Que.; Smith, Robert Alexander, Westmount; Soper, Allan John, Westmount.

Tarshis, Lawrence Jacob, Westmount; Thimms, Jacqueline, Montreal; Townsend, Michael William, Westmount; Trotter, Isobel Marab, St. Johns, Que.; Turcot, Peter Alfred, Montreal.

Valton, Norman Tail, Montreal, First Class Honors in Economics; Ward, Charles Kenneth, Montreal; Watson, George M. Lachne, Que.; Watson, Gerald Joslin, Town of Mount Royal, Distinction in the General Course; Wight, John Bethune, Montreal; Wilson, William Maxwell, Vancouver, B.C.; First Class Honors in Economics; Woods, George Webster, Montreal, First Class Honors in Economics and the Lieutenant-Governor's Bronze Medal.

Zunenshine, Harvey, Montreal.

THE FOLLOWING PASSED ALL THE EXAMINATIONS OF THE FINAL YEAR AND QUALIFIED FOR THE DEGREE OF M.D., C.M.

Ames, Harold, D. B.A., Hamilton, Ont.; Anton, Thomas, B.Sc., Blidford, Me.

Baxter, James D. St. John's, Newfoundland; Bayne, James R. D. B.A., Sherbrooke, Que.; Beck, Johannes C., B.Sc., Montreal, The Holmes Gold Medal for the Highest Standing in all subjects forming the Medical Curriculum; the Robert Forsyth Prize in Surgery; 2nd place High Aggregate Standing in the Final Year; Bennett, John N. B.A., Vancouver, B.C.; Bentas, Nicholas H., B.Sc., Manchester, N.H.; Bessom, Robert H., A.B., Swamscott, Mass.; Brewerton, Derrick A., B.Sc., Surrey, England; Bridge, Tom, B.A., Vancouver, B.C.; Brochu, Francis L., B.Sc., Montreal; Brodrick, Robert J., B.A., Montreal; Bullen, Arthur E., Moncton, N.B.; Burris, Donald S., B.A., Kamloops, B.C.

Caldar, J. Ralph, B.Sc., Charlottetown, P.E.I.; Chln Loy, Arthur S., B.Sc., Kingston, Jamaica; Cline, E. Catherine, A.B., Clarksburg, W.Va.; Cohen, Goodman, B.A., Reserve Mines, N.S.; Coleman, Charles L., A.B., Oakland, Cal.; Coleman, Laura I. M., B.Sc., Vancouver, B.C.; Cowan, Thomas A., B.A., Vancouver, B.C.; Cox, Phoebe L., B.A., Holyoke, Mass., 7th Place High Aggregate Standing in the Final Year.

Davies, Donald W. B.A., Scott, Sask.; Dean, Barbara W. B.A., Montreal West, Que. 4th Place High Aggregate Standing in the Final Year; Depew, Charles W. B.Sc., Canterbury, N.B.; Dewhurst, William H. M.A., Selma, Cal.; Diccaspari, Joseph, B.A., Montreal; Dysart, Robert MacD., Greenfield Park, Que.

Esfakis, Andrew G. B.Sc., Nassau, Bahamas.

Farlinger, Fraser A. B.Sc., New Liskeard, Ont.; Forse, Raymond A. B.Sc., Moncton, N.B.; Friedman, Seymour, Ogdensburg, N.Y.

Gale, John S. B.A., Stowe, Vt. The Campbell Howard Prize in Clinical Medicine; Gale, Robert A. B.A., Victoria, B.C.; Gerace, Joseph R. B.Sc., Windsor, Ont.; Goldstein, Maurice S. B.Sc., Montreal, The J. Francis Williams Fellowship in Medicine and Clinical Medicine; 5th Place High Aggregate Standing in the Final Year.

Goodwin, Norman L., Point Grey, B.C.; Gouthro, Patrick J. B.A., Port Morien, N.S.; Green, R. Glen, B.A., Saskatoon, Sask.; Greenberg, Jack, B.Sc., Montreal.

Hamill, Robert M.A., Westfield, Mass.; Hoffman, Martin M. B.A., M.Sc., Ph.D., Montreal, The Wood Gold Medal for the best clinical examinations in the subjects of the Final Year; the Walter W. Chipman

Gold Medal for the Highest Standing in Obstetrics and Gynaecology throughout the Medical course; 1st Place High Aggregate Standing in the Final Year; Hunter, Douglas R. B.S.A., B.A., Vancouver, B.C.; Hylton, Bancroft St. J. B.Sc., Jamaica, B.W.I.

Johnston, Clarence H. B.A., Inglewood, Cal.; Jost, Harold M. B.A., Ottawa, Ont.

Kemper, Francis D. B.A., Britannia Beach, B.C.; Kidd, Honor M. B.A., Vancouver, B.C.; Kroeker, Edwin J., Winnipeg, Man.

Lord, John T. B.A., Portland, Me.; Loughheed, Marvin N. B.A., Portage la Prairie, Man.; Lyons, Peter G., Moncton, N.B.

McDowall, Milton F. B.Sc., St. Vincent, B.W.I.; McGarry, Eleanor E. B.Sc., Montreal; MacIntosh, Donald J. B.A., Lismore, N.S.; Maclean, Charles A. B.A., Vancouver, B.C.; McNeil Smith, Elaine H. B.A., Jamaica, B.W.I.; Magill, William E. A.B., Malden, Mass.; Mair, Terence N., Jamaica, B.W.I.; Mapp, Lionel McH. B.Sc., Trinidad, B.W.I.

Masters, John H. Victoria, B.C.; Maymen, Abe B. B.Sc., Montreal; Mendelson, Myer D. B.Sc., Montreal; Miller, Alexander, B.Sc., Montreal; Minovitz, Osher, B.A., Saskatoon, Sask.; Mitchell, Robert E. A.B., Merced, Cal.; Moller, Charles F. B.Sc., Manchester, N.H.; Murphy, Sean B. B.Sc., New York, N.Y., the Lieutenant-Governor's Silver Medal in Public Health; Murray, Haakon O. L. B.Sc., Trinidad, B.W.I., 3rd Place High Aggregate Standing in the Final Year.

Norton, Herman J. A.B., Rochester, N.Y.; Nugent, Warren F. St. John, N.B.

Panton, William D. Vancouver, B.C.; Patterson, John G. Vancouver, B.C.; Peard, Barbara N. B.A., Montreal; Perkins, Robert Z. M.A., Berkeley, Cal.; Peters, Lloyd C. Rome, N.Y.; Poland, W. Desmond, B.A., Montreal; Pomerantz, H. Zvy, B.Sc., Montreal; Pronger, Ralph C. B.A., Vancouver, B.C.

Raymond, Sherwin H. B.A., Northampton, Mass.; Richter, Helmut A. B.A., Montreal; Rochlin, Isidore, B.Sc., Montreal; Ronan, Alice K. B.Sc., Antigonish, N.S.; Ronan, Francis G. B.A., B.Sc., Antigonish, N.S.

Sabbath, Joseph C. B.Sc., Montreal; Savory, Paul B. B.Sc., B.A., Kansas; Shaan, Hyman C.F. B.Sc., Montreal; Shelanski, Morris V. A.B., Philadelphia, Pa.; Stark, Kenneth A. B.A., Panicton, B.C.; Stratford, Joseph G. B.Sc., Brantford, Ont. The Alexander D. Stewart Memorial Prize for the Highest General Qualifications for the Practice of Medicine.

Thompson, George H. North Sydney, N.S.; Tunis, Mortimer M. B.Sc., Montreal.

The following obtained High Standing in Medicine: 1. Hoffman, Martin M.; 2. Brochu, F. L. McNeill-Smith, Elaine and Murray, Haakon O. L. equal; 5. Goldstein, M.S.; 6. Mendelson, M.D.; 7. Dean, Barbara, Friedman, Seymour and McDowall, Milton F. equal.

The following obtained High Standing in Surgery: 1. Beck, Johannes C.; 2. Hunter, Douglas R.; 3. Hoffman, Martin M.; 4. Coleman, Charles L.; 5. Gale, R. A. and Stratford, J. G. equal; 7. Cox, Phoebe, Goldstein, M. S., Mair, Terence N., Murray, H. O. L., and Peters, Lloyd C. equal.

The following obtained High Standing in Obst. and Gynaecology: 1. Hoffman, M. M.; 2. Murray, H. O. L.; 3. Beck, J. C.; 4. Forse, R. A.; 5. Kidd, Honor M.; 6. Gale, R.

A.; 7. Cox, Phoebe and Farlinger, F. A., equal.

The following obtained High Standing in Paediatrics: 1. Hoffman, M. M.; 2. Mendelson, M. D.; 3. Dean, Barbara; 4. Beck, J. C.; 5. Brochu, F. L. and Stratford, J. G. equal; 7. Goldstein, M. S.

The following obtained High Standing in Psychiatry: 1. Hoffman, M. M.; 2. Friedman, S.; 3. Gale, J. S., Mendelson, M. D. and Shatan, H. C. F. equal; 6. Beck, J. C. and McDowall, M. F. equal; 8. Dean, Barbara, Greenberg, Jack, and Mair, Terence N. equal.

YEAR II:

School of Physiotherapy

FINAL EXAMINATION RESULTS

First Class Honors: Kilgallen, Beverly, Montreal, Que. (Lieutenant Governor's Silver Medal), (Canadian Physiotherapy Association Book Prize); Kirkpatrick, Audrey, Montreal West, Que.

Second Class Honors: Langton, Katherine, Montreal, Que.; Weldon, Elizabeth, Westmount, Que.; Harper, Kathleen, Calgary, Alta.; Fraas, Norma, Westmount, Que.; Schjeldrup, Marie L., Courtenay, B.C.; Shulman, Estelle, Montreal, Que.; Blumenfeld, Myra, Montreal, Que.; Hardie, Maureen, Montreal, Que.

Third Class: Woolley, Marjorie, Pointe Claire, Que.; Booth, Allison, Montreal, Que.; Helynick, Laura, Montreal, Que.; Macpherson, Doris, Jean, Regina, Sask.; Meighen, M. Helen, Perth, Ont.; Macdonald, Barbara, Yankleek Hill, Ont.; Fletcher, Shirley, Lennoxville, Que.; Silverman, Harriette, Ottawa, Ont.; Beck, Mrs. M. Elizabeth, Montreal, Que.; Martin, Helen, Sudbury, Ont.

Crawford, Mrs. Mona M., Montreal, Que.; Coke, Muriel, Montreal West, Que.; Carmichael, Mary, Montreal, Que.; Hogan, Mildred, Montreal, Que.

One Supplemental: D'Amour, Iris, Shawinigan Falls, Que. (Physiology IB); Macdonald, H. Adelaide, Sydney, N.S. (Physiology IA); Oland, Ellenor, Saint John, N.B. (Physiology IA).

Two Supplementals: Howe, Bernice, Three Rivers, Que. (Medical Gymnastics); (Massage); Smitton, Lila, Regina, Sask. (Clinical Therapeutics); (Medical Gymnastics).

FACULTY OF ENGINEERING

Bachelor of Architecture
Attlee, Raymond Tait, Montreal, University Scholar; The Hugh McLennan Travelling Scholarship; The Royal Architectural Institute of Canada Medal for the Student obtaining the Highest Standing during the course; The Louis Robertson Governor's Silver Medal for the Student with the Highest Standing in the Graduating Year: Honours in Agriculture; Cole, Ralph Edward, Windsor, Ont.; Cripps, Robert Gordon, Montreal; Favretto, Angelo John, Montreal West; Goodfellow, Philip Foster, Montreal; Girard, Maurice, Rouyn, Que.; Halfhide, Ewalt, William, Port of Spain, Trinidad, B.W.I.; Jones, Barbara Ellen, Toronto; Milne, Katharine Barbara, Westmount; Papanek, Rudolf Joseph, Montreal. The Lieutenant-Governor's Bronze Medal for the student obtaining the second highest standing in the graduating year: Honours in Architecture: Shaw, Janet Leys, Westmount; Sim, Harry Yates, Ottawa; Yorke Slader, Patricia Heath (Mrs.), Ottawa.

Bachelor of Engineering
(Chem) Chemical Engineering; (CI) Civil Engineering; (EI) Electrical Engineering; (EP) Engineering Physics; (Mech) Mechanical

Engineering; (Met) Metallurgical Engineering; (Mi) Mining Engineering.

Abel, John Knight (Mech), Winnipeg; Aitken, Kenneth George (Chem), Winnipeg; Anderson, Barclay Harsh (Mech), Cadillac, Que.; Arnold, William Beverly (CI), Montreal; Balcome, Gordon Harris (Mech), Trenton, N.S.; Barrett, George Francis William (Mech), Lachine; Barrett, Patrick Francis (EI), Montreal; Bassett, George Finlay (EI), Westmount; Beaton, William Henry (CI), Montreal; Bentham, James Mallory (CI), Town of Mount Royal, British Association Medal: Engineering Undergraduates' Society First Prize for Summer Essay: Honors in Civil Engineering; Bettley, Thomas Robert Ross (Met), Montreal; Bilo-deau, Leo Joseph (Mech), Westmount; Bishop, John Murphy (Mech), Westmount; Blackmore, Roland H. (Mech), Port Union, Nfld.; Brown, Donald Boyd (EI), St. John's, Nfld. University Scholar: Honors in Electrical Engineering.

Cairns, George McEnyre (Chem), Montreal; Cepella, Otto Mario (Mech), Montreal; Chalmers, Gordon James (Mech), Bathurst, N.B.; Charlton, Jean (Mech), Montreal; Cohen, Louis Simon (Mech), Sydney, N.S.; Cram, Kenneth Haldane (Chem), Ottawa.

D'Amour, Bernard (Chem), St. Philomena, Que.; Davies, William Edward (Mech), Montreal; Dempsey, Joseph Edward (EI), Quebec City; Douglas, Denis Craig (MI), Vancouver; Dowden, Charles Barclay (EI), Halifax; Dussault, Jean-Jacques (CI), Montreal.

Eadie, Robert Kenneth (EI), Montreal; British Association Medal: Honors in Electrical Engineering; Ewing-Chow, Gerald (Mech), Georgetown, British Guiana.

Finch, John Clifford (CI), Montreal; Flaherty, Richard Newton (CI), London, Ont.; Follett, Douglas John (EI), Montreal; Forges, Robert (CI), Montreal; Fraser, James William (Mech), Pictou, N.S. Honors in Mechanical in Engineering; Futterer, Edward (MI), Toronto. Honors in Mining Engineering.

Gauthier, Léo Paul (EP), Cornwall, Ont. University Scholar: British Association Medal: Honors in Engineering Physics; Gibson, Philip (Met), Montreal West, Montreal Branch: American Society for Metals Prize; Clegg, Keith Cecil, Malcolm (E.P.), Cross Roads Jamaica, B.W.I.; Godin, Hubert Francis (CI), Outremont; Goode, John Dudley (Mech), Westmount; Goodman, Vernon James (Mech), Edmonton; Griffin, George James (EI), Montreal; Hann, Jacob (EI), Montreal; Haley, Philip Gambin (Chem), St. Stephen, N.B.; Henderson, Norman Lorne (Mech), St. Lambert; Harz, Peter Josef (Mech), Montreal; Holden, Lorne Whitney (EI), Montreal; Holder, Steuart Percy (EI), Montreal; Hopkins, Peter McMillan (CI), Regina, Sask.; Hoyle, Kenneth Sutcliffe (EI), Toronto. Honors in Electrical Engineering: Hurd, William Henry (CI), Montreal; Ince, Geoffrey Wakefield (EI), University Scholar, Barbados, B.W.I.; Jeffrey, William Barlow (Met), Montreal; Johnston, William Morrison (EI), Montreal; Kane, Elmar Jeremiah (EI), Quebec City, Que.; King, Cecil George (Chem), Winnipeg, Honorable Mention — IV Year Summer Essay; Kirsh, Leonard Bernard (Mech), Moncton; Kofman, William (EI), Montreal; Korcz, John (Mech), Montreal, Honors in Mechanical Engineering.

Krashinsky, Dave (Mech), Montreal; LaBerge, Jerome Guy (Mech), Quebec City, Honors in Mechanical Engineering: Engineering Undergraduate Society Second Prize for Summer Essay; Laflamme, Louis Jean (CI), Montreal; Lanciault, Roger (CI), Montreal; Lane, Alan Geoffrey (Mech), London, England; Lau, Neil Arnim (Chem), Port of Spain, Trinidad, B.W.I.; Layton, Robert Edward John (Mech), Montreal; Lee, Robert Gum Hong (Met), Montreal; Lamco, Ian (Mech), Montreal; Leproun, Bernard Donat (Chem), Montreal; Lesperance, Pierre (Chem), Montreal; Levasseur, Arthur Edward Joseph (CI), Montreal; Levine, Seymour (Mech), Montreal, University Scholar: Honors in Mechanical Engineering; Lochhead, Herbert Haig (CI), Lachine; Locke, Murray Douglas (EI), Westmount; Long, Julius Michael (EI), Montreal; Love, Donald Drewry (Mech), Lachine; Lowhurst, Harvey Gunther, (EP), London, England; Lynch, Denis MacIntosh (EI), Ottawa.

Macdonald, Ian Stanley (Mech), Westmount; MacKay, Alfred Elkins (MI), Cornwall, Ont.; MacKay, Edward Norman (EI), Quebec City; McKim, Douglas Murray (Chem), St. John, N.B.; MacLellan, Robert (Chem), St. John's, Nfld.; MacLeod, John Charles Frederick (Met), Montreal; McLimont, David Wingate (Chem), Oakville, Ont.; MacNeil, Cecil Francis (EI), Reserve Mines, N.S. McPherson, Charles Norman (CI), Winnipeg; McTeigue, Gerald James (Met), Montreal; Markel, Simon (EI), Montreal; Mathews, Donald Stanley (Chem), Westmount; Medzwicki, Thaddeus (Mech), Outremont; Meek, Robert George (CI), Hampstead; British Association Medal: The Robert Forsyth Prize in Strength of Materials and Theory of Structures: Honors in Civil Engineering; Minogue, Howard Douglas (MI), Montreal; Moncel, Andre Arthur (CI), Westmount; Mongeau, Paul (Mech), Montreal; Mooney, Donald Ralph (CI), Montreal; Morency, Charlesmeade (EP), Montreal; University Scholar: Honors in Engineering Physics; Morham, Kent La Rue (EI), St. Lambert; Morrison, Grant Samuel (CI), Ste. Anne de Bellevue; Morrow, Brian Jamieson (Chem), Montreal West; Honors in Chemical Engineering; Bursary of the Corporation of Pro-

fessional Engineers of the Province of Quebec; Morris, Donald Rupert Cunard (EI), Calgary; Mosher, Eric Murray (Mech), Liverpool, N.S.; Murphy, Myron Anthony, (Chem), Montreal.

Normand, Jean Jacques (Mech), Three Rivers, Que.; Nell, Proctor Cliford (Met), North Bay, Ont.; Nixon, Melbourne Edwin (Met), Montreal; Nunes, Ferdinand (CI), San Fernando, Trinidad, B.W.I.

Ostry, George Chem., Flin Flon, Man.

Panet-Raymond, Bernard (CI), Westmount; Paradis, Roger Albert (Mech), Montreal; Pearson, Bernard Edward (Mech), Ottawa; Perrett, Norman William (Chem), Montreal; Peto, Edwin Morton (CI), Westmount; Pollack, Morris Reuben (EI), Montreal; Pratley, Henry Hugh Lewis (CI), Westmount.

Rabin, David Aaron Raphael (Met), Ottawa; Rae, Howard Klieh (Chem), Town of Mount Royal; University Scholar: British Association Medal: Honors in Chemical Engineering; Jenkins Brothers Limited Scholarship; Rawlins, William Arthur (EP), Port-of-Spain, Trinidad, B.W.I.; Read, Preston Charles (EI), Montreal; Rigby, David Ware (CI), Montreal; Honors in Civil Engineering: Ross, Donald Alexander (EI), Montreal West; Ross, William King (Chem), Asbestos, Que.; Rossi, Ernest Joseph (CI), Montreal; Rotschild, Gerard (Mech), Montreal; Routledge, Ralph Frederick (Chem), Montreal; Salzman, Otto (Mech), Montreal; Saunders, John Winslow (Chem), St. Lambert, Que.; Scarabelli, Rudolph John (CI), Ottawa; Schneider, George (CI), Hamilton, Ont.; Sherman, Bernard Neil (EI), Outremont; Sidler, Joseph (Mech), Montreal; Smith, John (MI), Richmond, Que.; Spino, Mario (CI), Montreal; Starkey, John Leonard (Mech), Montreal; Stewart, John William (Mech), Town of Mount Royal; Stewart, William Lester (CI), Montreal; Stubbs, John Cooke (Mech), Beebe, Que.; Sumka, Stephen Myron (Chem), Winnipeg; Takeshige, Maurice Yasuo (CI), Montreal; Tamaro, Mario (EI), Montreal; Tanel, Fikret Azmi (CI), Istanbul, Turkey; Vallee, Gilles Georges (EI), Sherbrooke, Que.; Verge, Gerard Arthur (CI), Quebec City; Ward, Richard Albert (Mech), Winnipeg; Weekes, Richard Dillon (Mech), Montreal; Wilson, William Henry Tuzo (EI), Montreal; Wong, William Fet (EP), Montreal; Zal-kind, Louis (Mech), Montreal.

Sydney, Australia. — Grandstand escalators and lunch rooms planned for Randwick track where the horses draw Sydney's largest with a clear view of the races are Saturday crowds.

Around the Campus with Egbert...

Egbert says "Goodbye gang... See you in the fall!"

You may have to say goodbye to many of your friends at the end of the college year... but there is one friend to whom you won't have to bid farewell. You can find him at any one of the 500 branches of the B of M that extend from coast to coast.

During the summer months let the manager of your nearest B of M branch look after those savings you are going to pile up for next year. He will be glad to help you make any financial arrangements you wish for the paying of bills... transfer of money... or the handling of your savings.

P.S. "don't forget those supps!"

Foreign Flags over OTTAWA

TELL OF CANADA'S IMPORTANCE IN THE MODERN WORLD

20 years ago there was none... ten years ago only four... TODAY there are 24 Ambassadors, High Commissioners and Ministers representing their governments at Canada's capital. Striking evidence, that, of Canada's new place among modern nations!

We emerged from the war a far greater country than we ever were in pre-war days. Peacetime accomplishments are maintaining that new greatness today.

In the 80's we had a High Commissioner in London, and an Agent-General in France—but we had little say in our foreign affairs. Canada negotiated with foreign powers through the British Foreign Office, with Empire countries through the British Colonial Office.

In World War I Canada won the right to a separate signature to the Treaty of Versailles. That made 1919 an important date for us. Then, in 1931, we and the other Dominions gained recognition as equal partners with the United Kingdom.

World War II... Canada's achievements in battle overseas and in production at home won us world recognition as a modern power. The great majority of the embassies at Ottawa were established during the war years.

GUY PURSER is a young Canadian who started in 1931 with a gasoline station. Today, as a result of applying his knowledge of motor cars, his energies and talents to the full, he has developed a unique business in automotive service. His success has enabled him to fulfill a long nourished ambition to train and ride his own jumping horses, taking part successfully in open competition, and to turn his dramatic abilities profitably to playing leading roles in motion pictures.

GUY PURSER says: "I'm glad I decided to follow my career in Canada. There were opportunities when I started out. There are much greater ones now. No longer need young Canadians go beyond our borders to follow the road to success. It lies before them in Canada today."

Student Council Names Winners of Executive Awards

Pictured above are the winners of Group A Awards named recently by the Student Executive Council, not pictured are Ronald Gudgeon, President Dawson Student Council, Peter C. Landry, reorganization of squash. These awards along with Groups B and C are made annually by the council and are to acknowledge outstanding executive ability in campus extra-curricular activities.

The following is a list of winners in Groups B and C.

Silver Awards

Bob Gill, President, Arts and Science Undergraduate Society.

George Woods, President, Commerce Undergraduate Society.

John Switzman, N.F.C.U.S., Veterans' National Conference.

Don Noseworthy, Theology Representative to Students' Executive Council.

Dan Doheny, Law Representative to Students' Executive Council.

Ritchie Ward, President, Engineering Undergraduate Society.

Sydney Fullerton, House President Royal Victoria College, Swimming Manager Athletics Nights.

Anne Ryan, President Women's Debating Society.

Barbara Jackson, Secretary, Veterans' Society, Veterans' Conference.

Tim Buck, McGill Daily.

Norm Wolfe, McGill Daily.

Glenna Lymburner, McGill Daily.

Bob Perkins, President, Medical Undergraduate Society.

Frank Common, President, Veterans' Society, Law Undergraduate Society.

Bill Archer, Vice-President, Veterans' Society.

Sylvia Onesti, C.A.M.S.I.

Ted Hugesson, Men's Debating Model Parliament.

David Common, Men's Debating Model Parliament.

Peter Turcot, President, Students' Athletic Society.

Paul Betts, Arts and Science Undergraduate Society.

David Marks, Red and White Revue.

Hal Dale, President, Choral Society.

David Morgan, Athletics Nights.

Gerald Charness, Radio Workshop.

Robert Mackay, President, Red and White Society.

W. L. S. Trivett, War Memorial.

J. H. Summerskill, Handbook.

Honorable Mention

D. J. McPherson, President, Physiotherapy Society.

Joy MacKay, Vice Chairman, Freshman Reception, NFCUS.

Nicole Beaudelaire, President, French Society.

Mary Milham, Secretary Women's Union.

Althea McCoy, McGill Daily.

Al Tunis, McGill Daily.

Peter Hall, Red and White Revue Programme.

D. Brewerton, Editor of Medical Publication.

John Beck.

Des. Polan, Undergraduate Society.

May Adams, President, Phys. Ed. Undergraduate Society.

Mike Townsend, NFCUS; Commerce Undergraduate Society.

T. Bird, NFCUS.

Boris Berbrer, Men's Debating Society.

Otto Forchelm, Arts and Science Undergraduate Society.

Bob Paterson, Commerce Undergraduate Society.

Harvie Walford, Freshman Reception Committee.

A. R. Tremaine, Arts and Science Undergraduate Society.

Anne Verriest, Chairman Women's Union Soc. Service.

Dorothy Peterson, R.V.C. Representative to Women's Union.

Barbara Goodwin, Music Representative to Student's Executive Council.

Hugh Bonnell, Dentistry Representative to Student's Executive Council.

Robert Layton, Chairman, Plumbers' Ball.

Gordon Pfeiffer, Junior Prom.

Della Dwayne, Red and White Revue.

Robert Forques, Vice-President, Red and White Society.

W. Chipman, International Relations Club, Club Activities.

Mike Oliver, Summer Activities Committee.

John Skelton, Athletic Nights.

Milton Orr, Athletics Nights.

Bart Ellis, Athletics Nights.

Ed. Gauthier, Engineering Debating Society.

Sign on a boat—"The chairs in the cabin are for ladies. Gentlemen are requested not to make use of them till the ladies are seated."

D. ALEX ROSS, President of the Students' Society.

HEDWIG W. BROWN, President of the Women's Union.

ALLAN KNIGHT, Editor-in-Chief of The McGill Daily 1946-47.

JAMES A. PATERSON, S.E.C. Representative from the Faculty of Arts and Science.

DAVID L. TOWNSEND, President of the McGill Union

GEOFFREY W. INCE, Stadium Manager.

HERBERT SHAYNE, Managing Editor of the McGill Daily 1946-47.

HAROLD AMES, S.E.C. Representative from the Faculty of Medicine.

WILLIAM J. REID, S.E.C. Representative from the Faculty of Commerce and Co-Chairman of the Freshman Committee.

RICHARD GOLDBLOOM, Chairman of the Student Concert series.

CLEMENT BEAUCHAMP, Chairman of the McGill N.F.C.U.S. Committee.

ISADORE ROSENFELD, President of the McGill Debating Union.

JON BALLON, S.E.C. Representative from the Faculty of Arts and Science and Co-Chairman of the Freshman Reception Committee.

BARBARA S. FENTON, President of the M.W.S.A.A.

EDWARD M. BALLON, Chairman of Athletics Nights Committee.

Poem

When high above the sea you stand
And see the sun desert the evening sky,
And here the winds across the waters sigh
And watch the stars smile at the sand
And, later, springs invade the wintry land
And when you see the fertile fallows lie
And here the swallows, coming back, passerby—
Remember that this I command:

You sea and sun and stars and sky
And you, my swallows, springs and winds, I send
You to her, tell her not to cry
After the end, for all men die.

A. J. FRISCH.

Apology

No, I seek not to find above what I have failed
To passive skies and to an unintelligible universe.
To find down here, though often I confine my verse
Through many winds, on many oceans I have sailed.
If I cannot longer pawn cold stars to please swift
Comets, nor deceive the suns with an embezzled drift
Into a course which curses and consoles, forgive
Me. Here have I found all earth can offer, deeds and
dreams;

Yet though I know not what I seek, it seems
That it is more than these can give.

A. J. FRISCH.

CAHMPUS—p. 3

Don't evade the issue! Its adds up to 101 and you know it 43% I didn't add them, The Varsity is never wrong 00001% So much for the Gallop Poll. Then we have:

B. The Trotting Poll. This type of pole is used exclusively at Blue Bonnet Race Tracks to mark starts and finishes of various contests.

C. The Useless Poll (University Students Evading Lectures every Saturday Society). This poll deals solely with University Students and asks questions relevant only to

campus life, I mean Campus Life, Police Gazette, and other Literary gems.

The Useless polls include questions like "Do you Read the Varsity?" "What will Olyan do next?" "Will Ajax news ever hit the front page?" "Who wrote this article anyway?" Don't tell them Mr. Editor, please don't.

I confess.

Stockholm — (P) — A sanatorium near Nice, France, for 500 tubercular children will be equipped with furniture, linen, blankets, medical and surgical equipment from Sweden, reports the Swedish Red Cross. The sanatorium has been granted \$55,000 for furnishing and equipment.

Senate Inquiring Committee Makes Recommendations

New Athletic Setup For McGill Provides Better Management

One of the highlights of the recent War Memorial Campaign meeting held on May 15th and 16th when Dr. C. F. Tidmarsh, president of the Graduate Society, made known the contents of the report of the special Senate committee on athletics. Although the report has yet to be officially approved, it adds considerably in placing extra-curricular athletics on a firmer footing.

STUDENT AGITATION

The committee was appointed by the Senate early in the school year due in large measure to student dissatisfaction of the present method of controlling athletics on the campus and brought to the attention of all by a series of editorials in the "Daily". Throughout these articles, the editorials pointed to the poor arrangement in the present setup which places the athletic activity of all students under the Department of Physical Education. In an interim report released last February, the committee reaffirmed its support of true amateurism, while in this report specific suggestions were made for the improvement and efficient management of athletics at McGill and they are outlined below as released by Dr. Tidmarsh.

A NEW DEAL

1. The name of the Department of Physical Education be changed to the Department of Athletics and Physical Education and placed under a director.
2. The School of Physical Education be separated as an independent organization in regard to budget functions with its own director.
3. The present Advisory Board become the Athletics Board. It will work closely with the Director and have final decision (subject to the approval of the Board of Governors) in all matters pertaining to policy, budget and recommendations for appointment.

BETTER CONTROL

4. The name Athletics Manager be changed to Business Manager. He will supervise team managers, the business details and the purchase of supplies and equipment, spending the funds allotted to him under the budget at his discretion after consultation with the coaches.
5. Two full time members of the staff of the Department be appointed viz. Assistant Director of recreational activities for the purpose of implementing the policy of greater student participation, and eventually give every McGill student the time and opportunity for outdoor exercise.
6. A Director of Physical Education for Women be appointed to work with a women's athletic board to be established.

These recommendations follow the suggestions of the students and if given a fair trial should make for better playing conditions for all those taking part in sport at the University.

McGill, Glasgow Plan Exchange of Students

Plans for the exchange of students between McGill University and Glasgow University are going through successfully, the principal's office reported here recently.

The plan, which provides for the exchange of one post-graduate student every year, has already been approved by the Senate and the Board of Governors of the university.

Students proceeding under the exchange plan will be provided with free transportation; all their fees will be paid; and they will receive a grant to meet the cost-of-living while studying.

It is hoped that the plan will go into effect next October. Interested students who are eligible may contact the Registrar for more complete details.

University War Record Prepared

R. C. Fetherstonhaugh, official historian of McGill University, is writing a history of the university during the war years, it was learned here yesterday.

This new work, following hard on the heels of a recently published history of McGill, is expected to be ready for the printers shortly. It is thought that graduate students will be especially interested in the work. Further details are not as yet available, however.

Football Talk By Lou Little Packs Punch

On May 15th Montreal football enthusiasts were treated to a football show par excellence as Lou Little, noted mentor of the Columbia Lions, gave his ex-assistant, Vic Obeck and other local grid lights advice that will long be remembered.

Approximately 1,000 local football followers thronged to the Sir Arthur Currie Memorial Gymnasium to brush up and learn football guff and at the same time to open the concluding campaign for the War Memorial.

The evening started with the new Red Coach showing he was a very capable spokesman, as well as a capable coach, as he maintained that an Obeck coached team will be a well-conditioned and fighting team that will make any team it faces aware that it has had a battle.

The highlight of the evening was the speech by Lou Little who held the audience in the palm of his hand as he told tales gathered from many years as a star player for Penn., as a professional and a coach at Georgetown and Columbia. He expressed the hope and belief that with a modification of the rules eventually Canadian and American teams could compete against each other on the football field. He averred that colleges should face opposition of their own calibre.

Then to further enhance his popularity with those present (as if it needed enhancing) Lou acted as raconteur for films of last year's Columbia-Yale game. His witty remarks and football lore further demonstrated why Columbia is reputed to have one of the best coaches on the continent. This was not the sole effort of Lou Little in helping Montreal become more rugby conscious as the fall pastime achieved publicity hitherto unthought of in this fair metropolis. On Friday he was interviewed by press and radio scribes and impressed all with his knowledge of the game, his love for it and his keen sense of values. "If you're not playing to win give up the game," said Lou. For this reason he stressed the value of not over-matching teams for when a college becomes a door-mat, as in the case of Chicago University, they lose interest and the value of the game is destroyed.

Lou Little was lavish in his praise of McGill's new mentor. He has the greatest confidence in Vic and is sure that no McGill team under his tutelage will ever be a disappointment to the school.

On Saturday morning Lou Little was guest at a football clinic held for Montreal coaches by our own inimitable Vic Obeck. Here he ably demonstrated some of the finer points of the game. This all adds up to more and better football next fall. Come again Lou.

Two Crews to Carry Colours at Boston

Canada will attempt to gain the Boston Dinghy Club trophy on May 24 and 25 by defeating 11 teams representing American universities at the Massachusetts Institute of Technology Regatta.

The first attempt in six years to win from picked teams representing all American colleges comes with the selection of the McGill club to carry Canadian colors. One entry only is permitted from Canada.

Two Boats Entered

Sailing 12' sloop dinghies over the Charles River course at Boston, the McGill team of two boats skippered by Doug Woodward and Archer Ramsay, with crews Edward Ballon and Tom Kerr, will pit their sailing skill against the best of American elimination winners. Twenty-four boats will sail on a two-race schedule. Winner of this inter-collegiate competition will retain the trophy for one year.

McGill Nines To Participate In Ball Loops

Old Jupe Pluvius has been playing havoc with the efforts of Red baseball enthusiasts to organize a team this summer, but not to be swayed by the weather man, Vic Obeck has finally come out with the first bit of news as regards the diamond sport.

In an informal chat with the Daily yesterday, Vic let it be known that practice sessions will definitely get under way this week and that aspirants are advised to keep their eyes peeled on the notice board at the gym for information regarding the time and place of tryouts. Obeck, among his many other duties, has been combing the city for a suitable coach for the McGill boys, who showed great promise in their first crack at the game last summer.

SAME LEAGUE

The College nine will be entered in the same league as last year but the schedule has been extended to afford more competition for the teams and also to include more clubs. Boasting of such talent as Merrill, Joseph, Hennegar, Perron and last but certainly not least, Jovial John Greco (he'd have you believe he's the boxer too), Obeck promises that the Redmen will be formidable and that he'll stress speed in his workouts.

Most probably, the practices will be held at 2 o'clock in the afternoons at the Upper Field, atop Molson Stadium. It has also been directed to this corner's attention that all the positions will be held open and that no player has cinched a job as yet.

SOFTBALL GUFF

For softball enthusiasts, cheering news has been received with the announcement that teams will be organized to perform in various leagues throughout the city. The first game was played at Westmount park last week and behind the sterling hurling of Roy McKissock, the Red Raiders came out on top.

However, the McGillians showed signs of weakness in certain departments, particularly the hot corner and in the outfield. The players are none too effective with the hickory and a dearth of pitching talent is also noted, since McKissock, Mr. Steady on the mound, cannot be expected to hurl more than twice a week. All games are to be played at night, in the p.m. on week-ends.

Varsity Recaptures Puck Crown From McGill in Thrilling Playoff

The Queen's trophy, emblematic of intercollegiate college supremacy returned to Toronto this winter at the close of one of the most hectic seasons in the annals of the inter-collegiate loop. Although the hockey displayed this year by all means was not up to the par of the previous year, the title race was both one of the most exciting and confusing.

McGill started the year with the same team that brought the trophy to this fair city with the exception of Pierson and Porteous but before the first game, Jimmy O'Connor entered the sick bay and withdrew from the university. In the first two league games before the Christmas vacation, the Redmen defeated their two strongest opponents Varsity and the U. of M. but during the vacation Reg. Sinclair went to the hospital for an operation and although Keith English was brought up to replace him, the team was defeated by Varsity in their next game up at Toronto in a very rough game.

For the rest of the season Varsity and McGill battled neck and neck for the top rung but in their final

scheduled meeting a smoother, faster Varsity squad walked over the Redmen and the 12,000 fans bid adieu to the league championship. However, the following week in their last scheduled game with the Lowly Gaels, who hadn't won a game in two years, the men from Frontenac arose from the depth to defeat the Blue and White of Toronto. The next night at the Verdun arena the Redmen needed a victory over their city rivals to win the title for the second year in succession. However, the fates were not kind and without the services of Brodrick due to a technicality McGill could only scrape together a tie to force a playdown with Varsity. In the playdown Varsity proved their superiority and the trophy departed.

The hockey shown by the teams this year was not on a par with that of the previous years, although the U. of M. exhibited a better balanced team than they had formerly shown. The Redmen were hampered by their lack of practice space but with the new ring due to be started in the near future, things are looking up.

Hayes, Bridel and Smith Sparkle For McGill in Past Grid Season

The McGill gridiron Redmen started the 1946 season on the right foot as they beat the Golden Gaels from Kingston, 18 to 12, by virtue of Murray Hayes 100 yard run. This however was their only winning effort of the six game schedule.

On the following Saturday, the big Red Machine lost a heartbreaker to the Varsity Blues on a rain soaked field in the Queen city as a blocked kick took a freakish bounce over the goal line to become a Varsity touchdown and provide them with their 5 to 3 victory.

London was the scene of the next McGill defeat with the Western Mustangs completely dominating the play and amassing the impressive total of 700 yards gained in the air and on the ground to the locals mealy 180. The final count was Western 18, McGill 2.

These two clubs renewed their rivalry in Montreal the next week with the Redmen showing great improvement but not enough to win. Despite the driving play off Tommy Bridel and Earl "Whizzer" Smith, the Purple and White came out on the long end of the 12-7 score.

With three of their scalps already dangling at the belts of their opponents, the Redmen then played hosts and a return engagement with the Toronto Blues, and showed true eastern hospitality by graciously losing to them by a 17-5 score. The long floating passing of Mel Lawson was the winning factor for the visitors.

After two unsuccessful home starts, the Redmen again took to the road in search of their second victory over the hitherto winless Gaels. The tables, however, were turned this time, as the Kingstonians surprised by winning 14 to 5 in the roughest clash of the year.

The season ended with the champion Western Mustangs successfully defending their title and completing a second undefeated term in office. Runners-up were the Toronto Blues with four wins and two losses, and in a tie for third position, the Redmen and the Queenmen from Kingston both boasted a record of one win and five losses.

Western U. Remains Undefeated On Canadian Collegiate Courts

By LARRY SIRETA
(Daily Staff Writer)

"Hey, dopey," barks a none too familiar voice over the Ameche, "come on down here and knock out a story on basketball. You're supposed to be the shlim-mazel who knows everything that has happened here last year in the sport."

Seeing that I'm threatened with not being allowed to mount the podium for some sort of degree and that the story offers this character his last chance to see his name in print, yours truly addles down to the Union and proceeds with his chores.

"Well I tell ya, Dave," I says, "we had a good team on paper, but somehow things didn't work out as we had predicted in the rag. I mean in the press releases, Western, even without Moose McNeil, Tippy Duck, Fabe Curry and Jack Parry, not to mention a few minor lights like Bob Krol, Marty Humphries, etc., copped the garlands for the second straight season as they expected. Well, next spring's another year, eh Dave?"

Being a true McGillian and forever believing that one day the local Redmen might come up with a championship team, but, with the experience of shooting the same shellalagh for the past four semesters behind his ears, this boy decides that he doesn't want to wet his ears again and predict the practically impossible for next year, a winner, that is. However, we might venture to say that the Red and Whites will be stronger in every department, come next fall.

Why, you may ask. Well, here is some of the guff we have on tap regarding the subject. Lou Davies, the cagers' popular mentor, has gone in for some fancy planning for the future cage sessions and after our local idols underwent that terrific pasting in their last two outings, Lou finally cracked a smile from under that sinister exterior, which astounded this correspondent. But being slowly accustomed

"Minor" Sports Brought Laurels To the University

The so-called minor sports on the campus once again gained increased prestige and prominence as McGill scored its greatest successes in intercollegiate competition on the tennis courts, swimming pools, and cinder paths of their opponents.

This past fall the Red and White tennis teams, led by such outstanding exponents as Jim Duff, Bobby Duford, Jim Spencer, Breen Marlen and Colin "Hard-Rock" Ramsey, swept to Canadian Intercollegiate supremacy by virtue of their success in tournaments against the local Big Four, the western invaders from the University of Saskatchewan and the eastern challenge from the Bluesosers of Dalhousie University.

In coping every match over their traditional rivals, the Red Racquetballs proved themselves to be the best sextet ever to take to the courts under the staunch colors of McGill. After disposing of the western threat, headed by Davis-cup aspirant Don Hodges, the Redmen called the bluff of the over-zealous Dalhousie players and soundly trounced them at the Montreal Indoor Courts after the so-called 'tempest in the teacup' involving the rival colleges.

In the track world, the Red runners brought the coveted Tait-McKenzie trophy back to Montreal, when after a tedious campaign on the part of F. M. Van Wagner and Hugh Borsman of rebuilding the team, the McGillians, headed by Andy Gillespie and Pete Robinson, eked out a narrow win over their hated Toronto rivals. The McGill men also copped the Dominion Relay title and figure prominently in meets held in Canada and the U.S.A. during the past year.

The water-polo team proved itself to be the same strong squad that copped the garlands for the past few seasons, when they came through with dual triumphs over Queen's and Varsity in Intercollegiate competition. In local competition against top-flight natators, the McGill men also were formidable, splitting with the Dominion finalist Y.M.H.A. sextet, and gaining the odd victory over Central Y.M.C.A.

An extensive report by the boxing and wrestling managers revealed that there will be plenty of

D. Stuart Forbes Resigns from Post In Athletic Setup

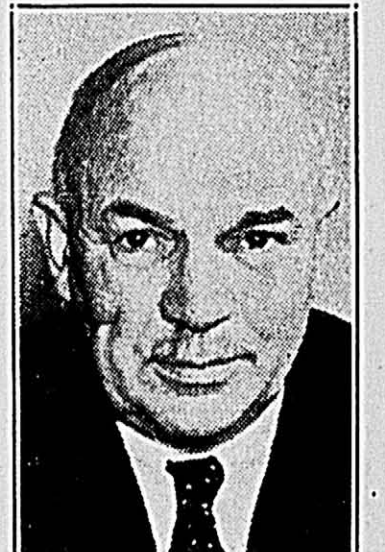

By DAVE MARKS

Athletics at McGill and Lieutenant-Colonel (Major) D. Stuart Forbes are generally rated as synonymous terms by followers of the sport fortunes of the Red and White. With the announcement that his resignation from the post of Athletics Manager is to become effective in September of this year, a chain of efficient service that started in 1923, rolled on through the Roaring Twenties and the Terrible Thirties, was interrupted for World War II and resumed in 1945, comes to an end.

Actually, Stuart Forbes' association with McGill and more particularly its athletics began in the balmy era that preceded the first World War. As a student at McGill he was not content with quarterbacking the football team but also found enough time to act as captain, manager and player on the basketball team, do some boxing, take part in English rugby and soccer as well as some twenty other sports. In addition, he became Secretary of the Students Council, took issue with faculty control of sports, ran dances in order to finance basketball trips and in between times found enough hours in the day to pass his exams for a B.Sc. in 1911 and a B.Arch. in 1915.

WAR RECORD

Immediately after graduation, Forbes enlisted in the Princess Pats, seeing considerable action overseas and winning an M.C. for

LT.-COL. FORBES
(Call Me Major)

The stocky, bowtied mentor paused for a minute and then went on. "I can't say that I am completely unfamiliar with the Redmen of yore, as I have seen some moving pictures of their games, but, these were rather poor and any indication I have as to their respective abilities is sort of sketchy."

Leaning back in his chair, the ex United States Navy Commander gazed about the photograph covered walls of his office, all the while framing his next statement. "Naturally," he continued, "there will be a new system installed and much instruction required in the way of fundamentals, etc., but with my capable assistants, headed by Gordie Marriott, late of Loyola, I have no worries from this angle."

The telephone rang and temporarily interrupted the interview. On the termination of a short talk with his wife, the sandy haired, broad shouldered athlete immediately got back on the topic. "No matter, whatever else happens," and he stressed this point most emphatically, "I promise, that there will be no other team in the league in better physical condition than we will be."

Then Obeck summed up in one meaningful sentence. "I really don't expect too much this year." It has long been the prerogative of all coaches, and especially football coaches, to look at the gloomy side of the picture, but in this case caution is certainly justified. A team that lost five out of six games this year plus its starting quarterback and left end, with no adequate replacements in sight, can hardly be expected to rise up in only one year and set the world on fire.

If, however, drive and coaching ability can make a pennant contender out of a tail ender, the Redmen might create some surprising upsets and therefore should not be counted out completely. The new Red reinsman also had a few other bits of information to divulge concerning his duties. There are at present ten candidates for the two assistant coaching jobs still open. These will all be given a chance to show themselves to best advantage and a pair from among them chosen.

Practices this year will commence on Sept. 8 but, coach Obeck says he would like to see all aspirants on the 6 of that month for equipment distribution and indoctrination.

VIC CURRAN

changes in the fisticuff field for the coming season. After a squabble with coach Frank Saxon, who, let the boys down at Toronto and Springfield, with the result that the grapplers nullified the efforts of the winning McGill boxing trio of Orr, Creaghan and Rency and the Gibson Trophy left the halls of McGill to become entrenched within the confines Toronto University.

his efforts at Ypres. He remained in the permanent force for a brief period of time after the war until he received his appointment as Athletics Manager in 1923. Since that time, the McGill athletic plant has grown in physical size and reputation until it has become ranked as tops in the Canadian intercollegiate circuit. Under the Major's guidance, facilities for athletics have been expanded steadily until the University now boasts of a top-notch football gridiron, the finest gymnasium in Canada and plans for a swimming-pool, and rink-auditorium expected to be completely erected by the end of 1948.

A man of many and varied activities, Major Forbes has also acted as head of the C.R.F.U. and it was mainly through his vigorous efforts that the forward pass was introduced into the Canadian game. Forbes also had a brief fling at the helm of the McGill grid fortunes when he acted as coach of the Redmen in the early Thirties. McGill's retiring Athletics Manager has gained a good deal of fame as a chef de repas of more than average ability. The tasty dishes that he whips up for private dinners have evoked considerable comment and praise while the delicacies which he ladles out at his annual press banquets are remembered long after the speeches have passed into oblivion.

Since 1945, Major Forbes has put McGill back on the Intercollegiate sports map in a bigger and better fashion with more sports, more contests and more contestants. With things now restored to what may be called normalcy, the Major has decided that it is time to call it a day. He retires to a well-deserved rest secure in the knowledge that he may be gone but never will be forgotten when old athletes get together to discuss treasured memories of McGill's days of sport grandeur.

Aukland, N.Z.—A new high in red tape was reached when an employee at a State hydro-electric works on a lake experiencing a drought refused to answer a reporter asking if it was raining, claim newspapers. The employee said his instructions were to give no information to the press.

Kirkcaldy, Scotland—Ballie D. Wright of Kirkcaldy criticized school history books as being "saturated with Conservatism."

conferring ceremonies and the principal's garden party in the Sir Arthur Currie Memorial Gymnasium-Armory in the event of bad weather. The gymnasium-armory however is not nearly large enough to accommodate all who are expected to attend the convocation and seating facilities will be taxed to the utmost if the ceremonies have to be held there.

There is no article of more common faith than that this is somehow a moral world.

CONVOCAATION DAY

WEDNESDAY, MAY 28, 1947

9.30 A.M. Academic Procession

10.15 A.M. Convocation

followed by Tree Planting

In the afternoon the Principal and Mrs. James will entertain at a Garden Party in honour of the members of the Graduating Class. Those invited to attend, are the members of the Graduating Class, their Parents, the Professors, the Associate Professors and Assistant Professors of the Staff of the University.

An invitation card from the Principal which will serve as a ticket of admission to the Garden Party has been mailed to the City address of every member of the Graduation Class by the Convocation Activities Committee. This ticket of admission must be presented at the Gate.

10.00 P.M.

Convocation Ball For
Graduating Students

"Just as the twig is bent..."

A man is exposed to education from the instant he is born. Through his formative days and through the sturdier days of his young manhood every impression inclines him towards that which will be his character.

And, finally, comes the day when he is loosed from guiding hands; let free to tread an individual path. And there is confidence in his heart, and in the hearts of all those who through the years contributed to this great step, for they have seen which way the twig was bent and thus know how the tree will incline.

DAWES BLACK HORSE BREWERY

Macdonald Issues Pass Lists for Agriculture

Ten award winners in the faculty of agriculture and the School of Household Science were announced over the week-end by Macdonald College in releasing final examination pass lists for first, second and third years of the agriculture and household science courses.

Quebec, Ontario, and British Columbia students shared honors in the Bachelor of Science in Home Economics course with Clara Covey, of England, Ont., winning the Dr. J. L. Todd Gold Gymnastic Medal awarded in the first year, Emily Ashton, of Ste. Anne de Bellevue, winning the Lieutenant-Governor's Bronze Medal awarded in the second year, and M. J. MacKinnon, of Cranbrook, B.C., winning the Lieutenant-Governor's Silver Medal awarded in the third year.

In the Bachelor of Science in Agriculture course J. J. Radford, of Toronto won the Lieutenant-Governor's Silver Medal awarded in the first year, when H. B. Heeney, of Ste. Anne de Bellevue, a second year student, won the Governor-General's Bronze Medal and the I.O.D.E. Scholarship.

In the diploma course in agriculture, Richard Kirby, of Cookshire, Que., was awarded the first year Q.W.I. Scholarship, and B. Ayeard, of Ste. Anne de Bellevue also a first year student the Lieutenant-Governor's Bronze Medal. Second year prizes in the diploma course went to N. P. Emerson, of Sutton Junction, Que., the Minister of Agriculture's Medal of the Dairy Farming Group; V. Smith, of Baie d'Urfe, the Minister of Agriculture's Medal for the Fruit Farming Group; and L. Foulard, of Beaconsfield, La Ferme Prize.

In the pass lists which follow an asterisk denotes a supplemental examination is required.

A., Lennoxville.

Gold Medalist—p. 1

some rather bad publicity in Mont- real recently because of alleged Communist domination. He did not, however, go into that aspect of the matter yesterday.

"I plan to attend the festival first," he said, "and then maybe wander about a bit and get some ideas on architecture that might be useful when I go to work here in Canada."

It is easy to please a wife—if she isn't yours.

INTRAMURAL SQUASH

The entry list for the McGill squash championships is posted. This tournament will be run in two sections. Section A for the McGill championship and section B for the intramural championship. The twelve highest players entered will automatically enter the A while the remainder will be in the B. Section B will commence Monday, March 3rd, at 5.15 p.m. Players must be prepared to play up till 9.45 p.m. on Monday, Tuesday and Wednesday as scheduled in The Daily. When the semi-finals of the B are reached, the four remaining players will be placed in the A section which will start Monday, March 10th at 5.15 p.m. with two rounds which will bring it to the semi-final. If and when all B players are eliminated from the A, both tournaments will continue and champions will be declared. The winner of the B section is awarded the Intramural Championship Badge.

The yield from Hevea rubber trees has more than quadrupled in the 67 years since they were first under cultivation.

TIME, TIDE—p. 2

—but they do not want to edit. For these the Feature Page is the ideal medium. And they, as well as the editors, would be very interested in hearing from our readers.

Well, we have thanked our contributors, and our readers. And we have discussed great plans and made a statement of faith. And thus, having had our say we pass on, leaving the page for new writers and new editors, and new readers.

And since it is the last issue, it is time to close the quotation that appears so often over the Feature Articles, the quotation that is always beginning, and that now we can end. . . . Time and Tide . . . Wait for no Man . . . and we pass on.

THE FARM WORKER THE NICKEL WORKER depend on each other

IN THE CITY OF SUDBURY and in the surround- ing mining district in the Sudbury area, about 60,000 people are living today. This is a mining region where little farming is carried on. In the course of a year these people purchase food to the value of about 9 million dollars, most of which comes from farms in other parts of Canada.

The farmer, on the other hand, must have machinery that is tough, strong and durable. So into the tractors, combines, mowers and other farm machines go increasing quantities

of nickel which help to keep wear and breakage down to the very minimum.

The Nickel worker could not subsist without the Canadian farmer. The farmer sows and harvests his crop more economically because of that amazing metal produced by the Nickel worker. No matter how we earn a living we are all one family, each depending on the others.

McDougall to Head Placement Service; To Be Canada Wide

To Assist Graduates in Obtaining Jobs

Appointment by the Board of Governors of McGill University of Colin McDougall, D.S.O. as Director of the McGill Placement Service was announced today by G. F. Benson, Jr., Chairman of the McGill Placement Board which guides the policy of the recently-established Service.

Canada-wide in scope, the Placement Service will assist members of the University's graduating classes in obtaining employment, and in addition will deal with summer employment for undergraduates, part-time employment for those attending university, and employment for graduates seeking positions offering better opportunities. Although designed specifically as an aid to McGill students and alumni, it is expected to serve a useful purpose in stemming the flow of Canadian-trained university graduates to the United States and to perform a definite service to industry generally in Canada.

Colin McDougall, the new director, is a resident of Westmount, a graduate of Lower Canada College and McGill University and was prominent with the McGill Redmen during the inter-collegiate football schedules of 1937-38-39.

Enlisting in the Princess Patricia's Canadian Light Infantry in July of 1940, he served five years with the forces, retiring with the rank of Major in August, 1945, after being awarded the D.S.O. and being mentioned in despatches. Until his recent appointment he was a students' Counsellor and Liaison Officer between the University and the Department of Veterans Affairs. In addition he is Vice-President of the Graduates' Football Club.

JOINT EFFORT

The Placement Service came into being through the joint efforts of the Graduates' Society and the University and is intended to consolidate the various employment services previously available in the University. Through Placement Committees in Graduate Society Branches the new bureau will maintain contact and liaison with employers and potential employers in all parts of the Dominion. Rounding out the service will be a committee composed of members of the McGill Faculty which will develop plans for student vocational guidance and selection.

The service will operate at a time when registration at McGill has reached unprecedented totals. Among the undergraduates are some 3,800 veterans who are now

Prof. McFarlane Quits At Macdonald College

Professor W. D. McFarlane, chairman of the department of agricultural chemistry at Macdonald and noted authority on animal nutrition, will resign from the college to take up a position in industrial research with a Toronto firm, it was learned yesterday.

Professor McFarlane has been at Macdonald college since 1939 when transferred from the University of Alberta, where he was assistant professor of biochemistry. During the Second World War he did important research on a fellowship granted by the Swift Canadian Company, on methods of extending the keeping qualities of fats and oils used as foods.

undergoing rehabilitation training at the university. Many of these veterans need part-time employment in addition to their rehabilitation credits to assist them through university, while the next few years will see unparalleled numbers of graduates seeking positions in the business and professional world. The Board is composed of representatives of the Graduates' Society, the University and the McGill Associates. The Graduates' Committee will seek, through its Branch Committees, to find employment opportunities and will direct suitable candidates to these vacancies. The University Committee is responsible for vocational guidance and the selection of student candidates to be recommended by the Placement Service.

BOARD MEMBERS

The Placement Board is headed by G. F. Benson, Jr., with Professor R. De L. French as Vice-Chairman. University representatives on the Board are Professors H. D. Woods; R. V. V. Nicholls; L. H. Hamilton; Dr. Frederick Smith and Dean C. Stuart Le Mesurier, K.C. Representatives of the Graduates' Society are P. S. Gregory of Shawinigan Water and Power Company; Frank L. Mitchell, Canadian Pulp and Paper Association and D. Lorne Gales, Field Secretary of Graduates' Society. Representatives of McGill Associates are Murray R. Chipman of Maclean-Hunter Publishing Co. Ltd. and Allan O. Mackay of The Sun Life Assurance Co. of Canada.

Ex-officio members of the Board are: Dr. F. Cyril James, Principal and Vice-Chancellor of McGill; Dr. C. J. Tidmarsh, President of the Graduates' Society; and M. M. Walter, President of the McGill Associates.

CITY COLLEGE—Product Styling
A course dealing with product design and styling began recently under the auspices of the Adult Education Division of City College. The course, described as "practical," will meet Monday evenings, and is open to art students desiring to enter industrial or architectural work and engineering students, in addition to those now employed in some phase of industrial design.

U. of Toronto's Hart House Has Good Points and Bad

By BEVERLY ECHLIN,
(CUP Editor, Toronto Varsity.)

Hart House, the two-storied, 80-roomed cut-stone structure almost in the centre of the University of Toronto's campus is both a prize and a problem.

In 1910 the building — designed on classic English lines — was presented to the University fully equipped, by the Massey Foundation, a memorial organization dedicated to industrial Hart Massey. It is maintained by the members of Hart House, who are undergraduates and graduates, paying an annual \$12 fee. There is no private endowment.

In fulfilling the "Prayer of the Founders", Hart House has all that contributes to foster good fellowship. A library of nearly 5,000 books, a debating room where heated words fill the room weekly, an art gallery with a permanent collection of originals and reproductions, a chapel and a theatre.

There is an athletic wing with rooms for boxing, wrestling, fencing, squash, an indoor track, two gymnasiums and a swimming pool. Hart House has a glee club, which

McGILL UNIVERSITY TENNIS COURTS

The Tennis Courts will be open for Student use (weather permitting) on May 24th. White suits only to be worn on the courts. Tickets for users can be secured at the Athletics Office, 475 Pine Avenue West.

Locker fee (users supply own padlock)	\$ 1.00
Courts open from 9.00 until dark.	

Army Grapevine Called Reliable

Chapel Hill, N.C.—The Army "grapevine" was a reliable source of information, Theodore Caplow, sociologist of the University of Minnesota, reported recently. Unlike the results of classroom experiments in the transmission of rumors, the effect of passing rumors on from soldier to soldier was to increase their accuracy, he found.

Mr. Caplow during the war, served in a regimental S-2 section, one of the routine duties of which was to prepare a monthly intelligence report that included a section on rumors. Since returning to his teaching post he has studied the reports and come up with some sensational findings.

"With only two doubtful exceptions," he said, "every major operation, change of station and important administrative change was accurately reported by rumor before any official pronouncement had been made."

Mr. Caplow prepared a technical report on rumors in war for Social Forces, scientific journal published by the University of North Carolina Press.

Commanders occasionally remarked that their line companies, usually distant from the centres where rumors originated, "knew" more than the commanders did about the probability of impending movements. Examining the data, Mr. Caplow found that quite often this was literally true. Most rumors were started from traceable centres, such as headquarters and the front line during actual battle. Individuals may start them even when they have no special information.

Most rumors contained three associated statements, and the tendency toward this form was so great that even barracks stories tended to conform to it, Mr. Caplow discovered. An example of June 28, 1945, was the rumor: "We are going to be in the Kyushu invasion. . . . Already attached to the X Division for it. . . . High point men will be left behind." Only a negligible proportion had more than three statements.

Past Year Summarized By James at Meeting

Increased Enrollment, Finances, Construction, Instructors Cited in Address

Increased enrollment during the past few years and the resulting problems which have faced the university authorities were the keynotes of Principal James' annual address to the McGill Associates on May 15; 8200 students were studying at the university during the past session and an equally large enrollment is expected next session.

Dr. James first commented upon the recent appointment of Chief Justice Orville S. Tyndale as Chancellor of McGill University which he marked as a "happy omen", touching on the brilliant career of another judge, the Honorable Mr. Justice Charles Dewey Day, who was an earlier chancellor of this university.

In commenting upon the pressure of increased enrollment, Dr. James told the Associates that residences in Montreal, Dawson, Lacrosse and St. Anne de Bellevue had accommodated more than 3200 persons. Seven sets of dining rooms and kitchens served a total of a million and a half meals between September 1946 and March 1947. The two totalled an expenditure of \$1,750,000.

BUILDING RECONSTRUCTION
Some \$1,200,000 has been spent on building reconstruction and the purchase of new equipment although we are still desperately in need of additional equipment and space, he added. Part of the difficulty arises from the difficulty of obtaining equipment and the rest is due to the increase in price of all scientific equipment as well as to the high cost of building.

Two important construction added this session to the university were especially mentioned by the principal: the Radiation Laboratory and Cyclotron, the greatest in the British Empire, and the Donner Building for Medical research for which the ground has been broken north of the cyclotron building.

The Donner Building will house the Maxwell Lauterman Laboratories for experimental surgery, the experimental laboratories in the Department of Psychology, the research laboratories in which Dr. Ayre will continue his investigations in regard to the cytological

diagnosis of cancer, as well as accommodation for studies in biophysics. Dr. James expressed the hope that the building would be completed by the end of the calendar year.

Budget Showed Deficit

As envisaged at the beginning of the session the budget has shown a net deficit of some \$350,000 or a gross deficit of approximately \$850,000 which it is hoped will be decreased by about \$500,000 by the Department of Veterans' Affairs. This financial problem Dr. James pointed out was not one that would pass with the present session as an equally large enrollment is expected next year and it is believed that it will still be an enlarged one up to 1951. An annual Giving Campaign is being inaugurated by the Graduates' Society after the close of the War Memorial Campaign but it is possible that the university may have to appeal to the city and the province for financial aid.

The number of men who are leaving the teaching staff of the university is large Dr. James pointed out, adding "We shall miss them in our counsels and in the daily informal walks of life." However, he mentioned, a number of fine men have been added to the teaching staff with more to be added this summer, despite the shortage of teachers due to the depression and six years of war.

CONCLUSION

In conclusion Dr. James mentioned the laying of the cornerstone of the War Memorial Swimming pool by the Governor-General last Founders Day. "It was an occasion," he said, "that commemorated the 125th anniversary of the University."

It was an occasion of dedication, and in which we looked forward clearly and purposefully not only to the actual construction of the building. That fact though important was, I think, only one of the thoughts that rose to the minds of each of us, who were privileged to partake of that ceremony. We must create a university which will be as splendid as our finest dreams, a university that shall comprise a galaxy of scholars and scientists worthy to be compared with those great names which made the history of McGill."

A Message From The Graduates Society

By LORNE GALES

This is the year you have been grinding for since matriculation. On May 28, God willing (and the examiners) you will be wearing that sheepskin that cost you so many hours of fret and frenzy to say nothing of the loss of hours of fun and frolic.

Along with 1,200 other McGill students who will be graduating today, you will swell the ranks of McGill's living graduates from 16,000 to 17,000. Henceforth, whatever your sphere of life happens to be—medicine, law, the Church, engineering, commerce, nursing, science or what have you—you will be proud to say, "I am a McGill grad."

But the status of "graduate" carries with it certain responsibilities. You owe it to yourself to make a success of your chosen profession and you owe it to your Alma Mater to do what you can to reflect credit on her.

Since 1855 McGill men and women have shown their pride in being graduates by being members of a Graduates' Society. The original Society was known as the McGill University Society, but the name was changed in 1876 to The Graduates' Society of McGill University.

You and I both have a great deal to be thankful for to these old grads. In one way or another, they have made McGill a happier, healthier and more attractive place for you and me.

In 1911 the Graduates' Society assisted in raising more than \$1,500,000.00 for the University—money which was badly needed. From 1912 to 1914, it promoted the construction of Molson Stadium. Everytime you watched a football game or a track race there, you were enjoying the benefits of the work of grads of 30 years ago.

In 1936, the Society conducted a campaign by which \$160,000.00 was raised for the construction of the gymnasium. In 1939, it promoted the construction of the Currie Gymnasium-Armoury and collected the additional \$400,000.00 required for this purpose. Many of you took

your C.O.T.C. training there, and all of you are enjoying its many facilities today. The "Athletics Nights" will always be a happy memory in years to come.

In 1945, the Society conducted the "War Memorial Campaign" in which to date \$630,000.00 has been raised to complete the "Athletic Centre," planned in 1933, with a memorial hall, swimming pool and rink auditorium.

Besides this, the Society has done something for the benefit of the "grad" himself. Since 1921 quinquennial graduates' reunions have been held which have been attended by grads from all parts of the World. During the War years the Society raised \$11,000.00 to assist the McGill C.O.T.C. in training over 5,000 graduates and undergraduates for war services. Besides this, free copies of the McGill News (a quarterly magazine which carries news of the University, its undergraduates and grads to graduates everywhere) were sent to all McGill graduates on War service.

At the present time, the Society has organized a placement service for graduates and undergraduates on a nation-wide scale, every branch in the Society from coast to coast and throughout the U.S. participating.

These are just the high notes of what the Graduates' Society has done for the good of its Alma Mater. The Society provides a link between you and the University and you and your fellow graduates. Old grads will tell you how pleasant it is to come back to the University at regular intervals and meet classmates of yesterday.

By joining the Society and paying a small annual contribution, you will be lending your support to an organization which has your Alma Mater's interests at heart.

You should be a McGill grad in every sense of the term—in name, in conduct and in action. You are invited to visit the Society's offices at 3466 University Street and see for yourself the extensive organization that is in operation.

JOIN THE GRADUATES' SOCIETY.

UNB Has Foresters Laboratory

By The Canadian University Press

The campus of the University of New Brunswick extends over 3,625 acres. Fortunately for students, the dozen halls of learning are not evenly distributed over this area, but are grouped in a mere 25 acres on the outskirts. In fact the rest of the campus is an exceptionally fine piece of timberland. How can this be called part of the University's campus? The answer is that it is to some 420 forestry students a laboratory and classroom in which they spend many of their learning hours.

Daily, the high-booted, plaid-shirted he-men of the faculty of forestry disappear into the tall timber behind their Forestry building carrying axes, tapes, compasses and frying pans. It has been said that there is not a tree in the woods that has not been examined, measured and classified by the zealous "wood-choppers". After a day's work they return, repairing to classrooms where their findings are transcribed into neatly tabulated figures.

The result of all this coming and going is not only the most practical and experienced of Forestry graduates, but also a supply of fire wood for the wood-burning boilers of the university buildings. It does not pay to point out to a forester however that one of the three coal heated buildings on the campus is the Forestry Building itself.

The Forester's claim that one could not be a forester without being tough, rugged and resourceful has lost some of its punch lately in view of the fact that one coed is progressing very favorably in her third year in the course, handling a transit and snowshoeing through the winter's drifts with the best of them.

Many strange tales are told of the peculiarities of the forester and what he does way out there in the woods. Most of these deal with his total lack of culture and abysmal ignorance of anything but forestry and inflammable beverages, it being said that the U.N.B. Foresters were the first to extract alcohol from sawdust. But the men themselves ascribe all this to jealousy of Science and Arts students. They point out that in fact they are the most versatile of all the students. They are part engineer, biologist and lumberman.

There are two four-year courses in Forestry given at U.N.B., one in forest engineering and one in forest entomology. The latter "Bugmen" have the fine facilities of the Dominion Entomological Laboratories on the campus available to them. A Provincial Forest Rangers School and Forest Protection Service headquarters nearby also help make the faculty's courses comprehensive in all respects.

LONDON — @ — At the invitation of the Speaker of the House of Commons, a delegation from the Czechoslovak constituent national assembly will visit the United Kingdom in April. This will return a visit of a parliamentary delegation to Czechoslovakia last year.

Walmsley Resigns Women's Presidency Over ANA Dispute

Dr.M.V.Roscoe Refuses to Discuss Issue

The Women's Union of McGill University will begin the 1947-48 session with its presidency vacant despite the fact that elections were held to fill this and other campus offices early in March. Norma Walmsley, the president-elect, resigned her position as a result of a disagreement with Dr. Roscoe, warden of RVC.

The nature of this disagreement was discussed at the semi-annual general meeting of the organization, held late in March, under the heading of New Business. Hedwig Brown, president for the past session, and Barbara Jackson, vice-president elect, presented Dr. Roscoe's "case," while Norma explained her own action. The meeting passed unanimously a resolution in favour of its recently elected president and favoured the inclusion of their resolution in a letter to be sent to Dr. James by the Executive.

On March 20, just before the meeting, Norma Walmsley resigned her position as president-elect of the organization of McGill's women students. A former officer and now a student in the School of Commerce, she was president of the veteran women's residence, ANA House during the past session. She stated fully the cause of her resignation from both offices at the general meeting of the Women's Union, which was attended by several hundred students, a considerable percentage of the women enrolled in full undergraduate courses at McGill.

A disagreement had arisen with Dr. Roscoe, warden of RVC over the way in which several graduate students residing in ANA House were told that they would have to make other living arrangements next term. Norma Walmsley explained that notices were sent to the girls without informing her as president of the residence. While the matter of the notices was still "in the air," and after these announcements had been received by the affected students, Dr. Roscoe and her assistant, Miss Zink, had avoided discussing the matter with her, Norma Walmsley explained to the meeting held in the RVC Common Room.

She went on to give an account of an interview hastily obtained with Dr. Roscoe after more than a week of understandable delay

securing an appointment. Norma Walmsley's account of the interview, which terminated in the student being asked to leave the room, was confirmed by Barbara Jackson, vice-president-elect, and Hedwig Brown, president of the Union for the 1946-47 session, both of whom were on hand when the conversation took place.

In the letter of resignation sent to Hedwig Brown Norma writes "I regret that this step has been made necessary but as my principles are not compatible with certain circumstances as they appear to me, I sincerely believe that for the benefit of the Women's Union as a whole, this is the only action that I can take conscientiously."

WARDEN REPLIES

Dr. Roscoe's letter to the former president-elect, on receipt of the above resignation, expresses regret that such a step was felt necessary. It explains the necessity of having the graduate students move out of ANA House to enable the University to carry out its responsibility to provide living accommodation for all women undergraduates.

Immediately following the resignation, a letter of "strong protest" was sent to Dr. James by the executive of the Women's Union. After the meeting another letter was sent by the same group to the principal and Vice-chancellor. This included the resolution that "this meeting . . . go on record as supporting the stand taken by the president-elect, Norma Walmsley, that the right of discussion and freedom of speech of its representative should not be denied . . . in the future. . . ."

OKLAHOMA—Japanese Course

A correspondent course in Japanese writing, said to be the only one in the United States, is being offered by the University of Oklahoma's extension division. The majority of the students enrolled to take the course are members of the armed forces stationed in Japan.

FRIENDS SCHOOL—Adult Class
An adult community school designed to stimulate interest in current problems of local, domestic and international significance will be opened under the auspices of the Germantown Friends School in Philadelphia on Tuesday and will run for seven weeks.

BATES—Scholarships
Scholarships totaling \$20,000 will be awarded during the current academic year to students of Bates College, where 15 per cent. of the institution's 750 students receive tuition aid. Twenty-seven students, two from foreign countries, are recipients of full-tuition four-year scholarships valued at \$1,400 each. In addition, annual scholarships ranging in value from \$40 to \$200 have been awarded to qualified individuals.
